THE MERCURY'S FALLING AFTER 20 YEARS

Mercury from products put into the waste stream is declining. Recently, this public health issue has been best highlighted with the revision of guidelines of certain fish consumption. The Environmental Protection Agency (EPA) along with the Food and Drug Administration (FDA) have loosened these guidelines with the implication being that the source of mercury contamination from these sources has decreased. The fish consumption guideline changes may indirectly reflect the findings of the Interstate Mercury Education and Reduction Clearinghouse (IMERC). In 2010, IMERC provided data on the use of mercury sold in products in the U.S. The graphs illustrated devices such as switches/relays, dental amalgam, lamps, batteries and thermostats. The juxtaposition of these two pie charts compared 2001 to 2010. As highlighted in the thermostat slice, there was a noticeable change in mercury in thermostats during this time period as a percentage of the overall pie. In fact, IMERC published that by 2007, mercury use in the production of thermostats was basically nonexistent¹. According to IMERC's fact sheet, "There are non-mercury alternatives that may be suitable for replacing mercury thermostats. Programmable thermostats can save energy and money, by enabling users to automatically adjust the temperature or turn off the heat or air conditioning depending on the time of day." Logically, any decline in thermostat collections can be explained with these overarching constraints.

¹ <http://www.newmoa.org/prevention/mercury/imerc/factsheets/thermostats.cfm>

Looking specifically at the TRC collection data, there has been an irrefutable downward trend in thermostats (on the average) inside the program's recycling containers. What's more is the program's national collections peaked by 2014. At that time, the program would have been in operation at least seven years from last production (2007) of mercury containing thermostats. Or at the beginning of the decline of mercury thermostat production which would have been 10 years (2004). Thus, the further TRC moves from the range of mercury thermostat production (2004-2007), the less the program can reasonably expect to collect since these collected products are fungible. This past year's mercury thermostat collections do, in fact, demonstrate a decline (-2% less than 2016 nationally)². Despite the obvious softening of collections, TRC has recycled more than 2.1 million thermostats, diverting more than 10 tons of mercury from the ecosystem across 48 contiguous states, all within these twenty short years of operation. This is quite an incredible feat.

Amidst the resulting decline in collections, how does the program collect devices that were once widespread in use, do not have a downstream recycled commodity market, and are not uniformly tracked following purchase and installation? The only answer is that you focus on deploying precious resources at targeting the best opportunities within the most promising sectors. You use data, hunches, or metrics. You choose to focus on where there have been consistent numbers inside of the recycling containers and you lean on the stakeholders that make the program a success. In 20 years of operation, we have learned that stakeholders such as the regulatory community, our paying members, the collection points, and vendors hold the keys to our success as an organization. Without them, we do not have a successful recycling program, nor does the environment. Utility driven thermostat replacement programs, the installing HVAC industry, and the waste recycling sector consistently demonstrate that they can stimulate these devices for recycling and are willing actors. To pursue other channels has proven to be inefficient and ineffective. We plan to stay vigilant in the face of the changing thermostat product adoption cycles and the evolving market forces. The reality is that these focuses are not dissimilar to where the program started twenty years ago. These core values of TRC will not and have not changed. No longer is mercury rising and we are proud to willingly have participated in its decline.

A handwritten signature in black ink, appearing to read 'Ryan L Kiscaden'.

Ryan L Kiscaden
Executive Director, Thermostat Recycling Corporation

² Graphs illustrating these two points are available in the 2017 State Specific Collections and Evaluation section of the annual report, see table of contents for page number.

NATIONAL

2017 ACCOUNTING OF THE PROGRAM EXPENSES

Listed in the table below is TRC's 2017 program expenses compared to 2016. 2017 program expenses are unaudited and are for management purposes only. Prior to submittal of this annual report, the expenses were reviewed by Halt, Buzas & Powell, LTD. A copy of TRC's 2016 IRS Form 990 appears in the appendix.

Program Component	2016	2017	% Change
Direct Expense for Marketing & Outreach	1,254,329	1,531,703	22%
Incentive/Promotional Payments	44,460	47,633	7%
Legal	30,952	219,878	610%
New Collection Containers	13,473	1,614	-88%
Recycling Costs	308,899	583,829	89%
Travel	79,259	58,332	-26%
TRC Staff and Administration	548,137	453,693	-17%
Total (expenses)	2,279,509	2,896,682	27%

The program's expenses increased by 27% in comparison to 2016. It is important to report that the program has seen an increase in expenses while the collection rate of thermostats has decreased. The increase in expenses doesn't match the thermostats collected rate (+/- 29%). The recycling program continues to become more expensive to acquire each incremental new thermostat.

New Collection Containers: 2017 marked a year in which the program did not need to order new recycling containers. The noticeable change in ordering bins is tied to the fact locations are returning bins which no longer see thermostats, the re-use of these bins, and the small pail option for collection points. This is in spite of the fact we sent over 500 new, green recycling containers.

Recycling Costs: As expected from last year's annual report, the costs to process thermostats increased by 89%. These costs are directly related to switching the processing facility to Veolia.

Clarification on classes for costs: TRC uses an accounting process in QuickBooks which allows the organization to code expenses to both account code and class. Classes set up for allocation include individual states, a "mandatory" classification, and a "national" classification.

These classifications allow TRC to attribute costs in an appropriate manner. For example, many times marketing activities are best done at the "mandatory" classification for economies of scale. If TRC engages a marketing activity geared towards multiple states (i.e.

a direct mail piece) then TRC will use this category to allocate costs to the “Mandatory” category. As a comparison, we’ve arranged our costs to show the costs of the “Mandatory” classification, “National” classification, and total 2017 expenses. TRC did not allocate any of these costs against state programs.

Program Component	Mandatory (\$'s)	National (\$'s)	Total Expenses (\$'s)
Direct Expense for Marketing & Outreach	97,095	436,624	1,573,878
Incentive/Promotional Payments	-	-	5,458
Legal	4,228	74,966	219,878
New Collection Containers	-	1,614	1,614
Recycling Costs	-	274,518	583,829
Travel	3,219	34,550	58,332
TRC Staff and Administration	62,683	309,556	453,693
Total (expenses)	167,224	1,131,829	2,896,682

2017 EDUCATION AND OUTREACH

INTERNAL EMPLOYEE PROMOTION

Effective January 2018, Danielle Myers was promoted to Operations and Compliance Manager. She joined TRC in December 2016 as Executive Administrative Assistant & Office Manager. In her new position, she will be responsible for administrative and operations functions, while managing the processing facility's performance, reporting on issues and maintaining regulatory compliance. She holds a Bachelor of Science degree in Leadership, Ethics, and Organizational Sustainability from the prestigious Haub School of Business at Saint Joseph's University. She has been involved in the sustainability industry since 2013.

DIRECT MARKETING (EMAIL, MAIL, OTHER COMMUNICATIONS)

New Member Recruitment

In April of 2017, TRC wrote a press release announcing the newest members that had joined TRC to remain compliant with the Minnesota S.F. No. 2192. TRC mailed a letter along with the press release to 32 non-compliant companies inviting them to join the TRC if they are out of compliance, pertaining to the Minnesota state law requiring all thermostat manufacturers to be responsible for the costs of collecting and managing replaced mercury thermostats.

Current Collection Locations

Collection Containers - From Big Bins to Small Pails.

In 2017, TRC took a proactive step in mandatory states switching some collection locations' containers from a large bin to a small pail [Figure 1.0]. The criteria for the switch-out are locations who have sent their bin in for processing since the beginning of 2016 that contained 6 or less thermostats. These locations can choose to continue using the green bin, but our hope is that we can increase the return rate of our containers with this small pail offering. In theory, the container would fill up quicker and encourage the location to send back sooner. Prior to the strategy being deployed, TRC spoke with the regulatory agencies within California, Illinois, and Vermont for a pre-approval of this concept. It was met with fanfare.

Figure 1.0

In 2017, TRC shipped 334 small pails to collection points around the country. These entities either requested the new container when they signed up to participate in the program or were switched out with the campaign mentioned prior.

The large, green bins which have been the staple of the program, continued to place throughout the country. Often times these new bin orders coincide with accounts that open new stores, move or lose their existing containers. Because the containers are re-used, we anticipate that the request for new containers will continue to decrease as the program operates. In 2017, TRC shipped 509 new green bins. In comparison, the program shipped 635 new bins in 2016.

Collection Location Outbound Phone Calls

These calls have been branded internally as the “*Miss You Call*” process. These calls promote collection container returns and in 2017, these calls were handled more efficiently. TRC reallocated resources for *miss you calls* to collection sites, in mandatory states, that have not returned stock-filled bins in over a year. This valuable tactic for bin retrieval normally took between five to twelve hours of an internal TRC employee’s time each month. During the course of each call, a TRC representative would offer to schedule a next-day FedEx pick-up for forgotten bins and have it shipped to Veolia for processing.

Now, these calls are outsourced to the Regus Property Management representatives and Intelligent Office. By outsourcing the work, TRC has amplified its call time to 25 hours a month, and increased the number of bins returned.

The accumulation of these changes has netted the program an increase of 563 calls over 2016. In total, the program called 2,373 current collection locations in 2017.

Collection Location Postcards

Over 13,000 postcards were sent this year to collection locations that haven't shipped a bin in the past year, a 50% increase from 2016.

New for 2017, TRC emailed locations three weeks after receiving a postcard to encourage them to directly ship the container. This email campaign was sent to 2,799 locations.

Collection Location Site Visits

1,698 site visits were completed in California, Connecticut, Maine, Massachusetts, Illinois, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont. The purpose of site visits is to inform the location of their requirements in participation, what the statute requires of them, shipment of the recycling container, and to answer any questions they may have. Often times, valuable intel is gathered during the site visit which is used to enhance TRC's outreach and other tactics.

Merchandising in-store displays

In 2014, TRC developed branded merchandise displays for its recycling containers. The purpose of the displays is to enhance the visibility and accessibility of the program to contractors at HVAC wholesale locations. Throughout 2017, TRC distributed free branded cardboard displays to HVAC wholesale distributor collection locations to showcase the TRC container. The program continues to discuss and offer these displays to requesting locations. Most of the new requests have diminished but we continue to fulfill replacement needs.

HVAC Industry

The HVAC industry is arguably still the best, most productive and most engaged channel for recycling mercury containing thermostats. We consider this industry to be the manufacturers, wholesale distributors, and contractors which are intimately involved with the recovery of mercury thermostats.

BMOP Competition Announcement

In April, TRC announced the start of the 2017 Big Man on Planet (BMOP) Competition in a mailing to 1,034 HVAC wholesale locations.

TRC Contributed to the HVAC Industry Statement and Recommendations in Flood Zones

This educational informative piece was authored by the Air Conditioning Contractors of America (ACCA), Air Conditioning, Heating, and Refrigeration Institute (AHRI) and Heating, Air-Conditioning, Refrigeration Distributors International (HARDI). TRC contributed

specific content on recycling mercury thermostats. The piece acted as a mailing in Texas and Florida after flooding due to hurricanes [Figure 1.1]. In addition to this piece, Industry experts representing the heating, ventilation, and air conditioning (HVAC) industry released a statement and guidelines regarding flood zones, air conditioning equipment, and hot water heaters. The statement was sent to national publications such as the Washington Post and Good Morning America.

Figure 1.1

HARDI wholesale branch location clean-out mailings.

TRC mailed over 1,000 direct letters to wholesale distributors in mandatory states to remind them to write off old mercury thermostat stock and recycle the new in box products. Many thermostats manufactured prior to 2007 contained mercury and the sale of these devices have been banned by many states. Most distributors had written-off stranded inventory of mercury thermostats, but it was possible that these units were yet to be disposed of and may remain at either branch or central distribution locations. TRC provided materials such as a template of an internal memo to help facilitate this process.

We also reminded them that any mercury thermostats returned from the branches would count towards the Big Man on Planet Competition.

HVAC Educators Training

TRC contracted with an HVAC/R icon, Warren Lupson on helping TRC reach into the next generation of HVAC/R technicians. During the calendar year of 2017, Warren presented information on the recycling program to:

- Alabama Council of Air Conditioning Educators (ACARE) on July 20-21st. The Alabama CARE, hosted by Alabama Power, has a turnout of almost 100% of the state approved school instructors. There were 31 instructors from schools that teach HVAC/R, 8 from the different Alabama Power (Southern Co) HVACR training Centers, 4 wholesalers and some Alabama school officials. From the presentation, there were commitments from 31 instructors that they will put up the TRC posters in their classrooms.

Utility Industry

In 2017, TRC refined its approach on how to engage the utility sector. After a few years of networking, work within the industry and research, it had become apparent to TRC that this sector had three very distinct pathways to pursue. They were the utility companies themselves, the installer/implementer, and community action agencies. Each of these audiences have distinct messaging requirements and informational needs. With these learnings, TRC took the following actions:

1. Purchased research on energy efficiency projects geared towards thermostat replacements and rebates/incentives
2. Attended the Building Owners Management Association national trade show
3. Attended the NJ based PSEG networking event in Newark, NJ which pulled in the Mid-Atlantic utilities companies such as PA and NY based utilities
4. On 6/23, sent an informational email to known utility implementers on the program
5. On 5/23, sent informational email on thermostat recycling to the DOE weatherization program
6. Directly marketed to 392 community action agencies and NGO's which included technical requirements through the NREL. These requirements were directed toward the Standard Work Specifications through the federal DOE and can be located at <https://sws.nrel.gov/spec/531041>.
7. Attended AESP (Association of Energy Services Professionals) and NEUAC and exhibited at NARUC (National Association Regulatory Utility Commissioners) conferences

Household Hazardous Waste (HHW) Industry

Not unlike the utility industry, TRC spent time with the waste-related sector. These attempts were to gain new collection locations, form better relationships with the audience and raise overall awareness of the TRC program. Because of these learnings, TRC took the following actions:

- TRC staff joined the National North American Hazardous Materials Management Association monthly planning committee.
 - Sent a letter to the Energy Recovery Council (ERC) to form a better relationship with its members. ERC is a national trade organization that represents the waste-to-energy industry and communities that own waste-to-energy facilities. Current ERC members own and operate a vast majority of the 77-modern waste-to-energy facilities that operate nationwide, safely disposing of municipal solid waste, while at the same time generating renewable electricity using state-of-the-art technology. ERC's members include Covanta, Wheelabrator and other waste to energy plants. The direct communication hopes to open communication of collaborating and diverting mercury prior to waste-to-energy activities.
 - TRC staff attended and presented at the Association of New Jersey Household Hazardous Waste Coordinators meeting.
 - TRC agreed to formally send to Earth 911 a location list of TRC collection points to promote on its website nearby collection locations.
 - Scoured google alerts for new HHW facilities openings or events to target phone call or email outreach to encourage them to use program. Alerts included articles titled:
 - "Households drop off tens of thousands of pounds of hazardous waste for Delmar safe disposal/recycling"
 - "'Catch-all' recycling event Saturday at fairgrounds"
 - "Hazardous home wastes collected on Oct. 7"
 - Wheelabrator mailing to plants. With TRC's existing relationship with a similar waste-to-energy (WTE) giant Covanta TRC reached to Wheelabrator locations in the northeast corridor, offering to provide them with our recycling containers. A total of ten plants were communicated to - two in Connecticut, three in Massachusetts, one in New Hampshire, three in New York, and one in Pennsylvania.
-

ADVERTISING

Trademarked Logo

In the summer, TRC submitted paperwork to offer trademark protections on its two versions of its logo. The trademark would cement Thermostat Recycling Corporation's business operations and also the branding associated with its logo. In early August TRC received confirmation that the U.S. Trademark Office has received its applications to register its trademarks and assigned the filing dates and serial numbers. Although the logo was not redesigned, the trademarking process is great way to prove credibility to the organization. [Figure 1.2] demonstrates the application serial numbers submitted.

Figure 1.2

New Creative

TRC, in conjunction with its advertising agency, designed new marketing creative. The creative advertising was developed around recognition of the wallpaper behind a mercury thermostat and the messaging of “protecting your family” from the dangers of improperly disposed of mercury thermostats. [Figure 1.3]

Figure 1.3

TRC also redesigned both its large trade show booth and tabletop display for the 2018 trade show schedule. [Figure 1.4]

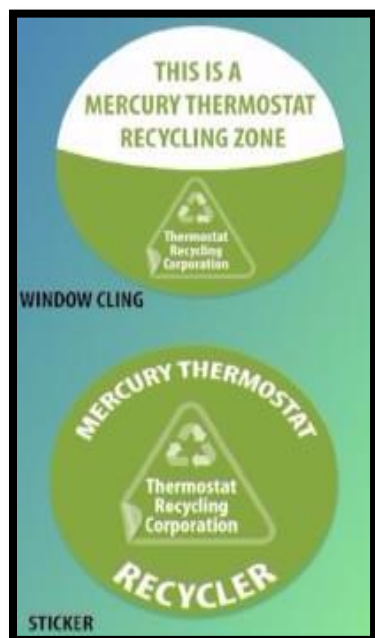

Figure 1.4

Print Advertising

In the summer, TRC redesigned its window clings and stickers. These pieces are included in each new collection container shipment, effectively updating the old materials. [Figure 1.5]

Figure 1.5

Spanish Translations of Marketing Collateral

TRC's marketing collateral was converted to be available in Spanish, as well as English on our website. Items such as posters and brochures were updated in hopes of reaching audiences we haven't in the past. [Figure 1.6]

Figure 1.6

National Association Regulatory Utility Commissioners (NARUC) Sponsorship

In addition to attending seminars and exhibiting, TRC was a sponsor of NARUC's 129th Annual Meeting and Education Conference held in Baltimore. TRC's intent was to spread awareness the recycling program and coordinate efforts which would lead to utility companies being required to include the recycling of mercury thermostats in their request for proposals. [Figure 1.7]

Figure 1.7

NEUAC Conference Program Book: June 26th-June 28th Conference [Figure 1.8]

- Field Served: NEUAC is a broad-based coalition of diverse organizations with a mission to increase awareness and understanding of the needs of low-income and moderate-income energy policy; and provide information, data and technical assistance in the creation and development of fuel funds and statewide fuel fund networks.
- Full page, 4C Ad 8 1/2" x 11"
- Tote bag insert - 700 pieces

Figure 1.8

Lodging Engineer Digital Magazine: National Association of Hotel & Lodging Engineers

- Field Served: Official trade publication of NAHLE. The magazine provides valuable information and insightful coverage of all aspects of hotel engineering. Topics include: federal and state regulations, operations, energy and water management, building systems, human resources, building envelope and grounds, new technology, project management, maintenance, renovations, sustainability and personal development.
- Full page, 4C 7/14" x 10"
- Summer Issue
- Total Impressions Delivered: 23,211

Digital Advertising

The digital advertising was a combination of digital video, display, and Google AdWords. These ran on YouTube (video) and in website ad networks that are grouped by category like "Green Living" or "Working Man." These ad networks are made up of any number of dozens of sites that appeal to a particular type of person, the environmentalist or the contractor, for instance.

AESP Newsletter [Figure 1.9]

- Field Served: Readers are involved in the energy efficiency, demand response and demand side management industries.
- Deployment: 8,000
- Used earned points for initial sponsorship and ran 3 paid sponsorships - Masthead Banner
- Total Impressions Delivered: 30,306

Figure 1.9

AHRI Weekly Digest E-Newsletter

- Top Banner Ad 468 x 60
- 1,706 deployed weekly on Monday to heating and commercial refrigeration manufacturers
- Total Impressions Delivered: 13,644

NAHMMMA News Watch E-Newsletter

- Box Banner Ad 300 x 250
- 1,811 deployed every other week on Thursdays to Municipal hazardous waste professionals
- Total Impressions Delivered: 5,606

National Demolition Association E-Newsletter [Figure 1.10]

- Box Banner Ad 300 x 250

- 1,629 deployed weekly on Monday to demolition professionals
- Total Impressions Delivered: 6,491

Figure 1.10

Google AdWords

In 2017, Google AdWords were optimized via paid search. TRC bid on keyword terms and phrases in order to have our paid placement appear at the top of search result pages on Google.

Social Media

In 2017, TRC took a more active role creating and sharing content via its LinkedIn, Twitter, and Facebook pages. The engagement helped raise awareness of the program and enhanced important relationships throughout TRC target audiences. Some examples include:

BMOP Contest Facebook Promotion [Figure 1.11]

- 1,553 reached
- 627 engagements

Figure 1.11

Earth Month Social Media Blitz

In honor of April's Earth Month, TRC developed a general public awareness ad that was distributed to all TRC members through representatives on the newly-formed marketing committee. Many members posted the graphic on their own social media outlets to help broadcast the TRC message. Additionally, TRC posted a blog on its website in support of the ad and issued a press release to media in the Philadelphia region in hopes of garnering additional attention. [Figure 1.12]

Figure 1.12

America Recycles Day

November 15 was America Recycles Day. TRC took part in the Keep America Beautiful initiative by raising awareness about the value and benefits of reducing, reusing and recycling via social media, as well as supporting our collection partners in their efforts.

Executive Director Authored Blogs

On TRC's website and the TRC LinkedIn account, the Executive Director authored four unique blog posts on topics ranging from best practices for trade shows, TRC's data learnings, and recycling.

Earned Media

- TRC's member, Burnham Holdings ran an article authored by TRC entitled, "How to Profit with Mercury Thermostat Recycling".

Press Releases

- On March 02, 2017, TRC released the "TRC Names Franklin Energy Services Illinois' Collection Partner of the Month".
- On April 20, 2017, TRC released the "Thermostat Recycling Corporation (TRC) Announces Addition of First Non-Mercury Thermostat Manufacturers to Its Membership".
- On May 31, 2017, TRC released the "TRC Major Announcement: Big Man on Planet Competition Registration Deadline Moved to June 31st".
- On Jul 13, 2017, TRC released the "MAJOR ANNOUNCEMENT: TRC Changes Eligibility for 2017 BMOP Competition and Announces Two New Contest Categories".
- On Aug 23, 2017, TRC released the "Chittenden County, VT., Leads Nation's Household Hazardous Waste Sector in Recycling Mercury Thermostats".
- On Oct 19, 2017, TRC released the "Thermostat Recycling Corporation and Wheelabrator Technologies Team Up to Recycle Mercury Thermostats in Massachusetts".
- On Dec 05, 2017, TRC released the "TRC Announces 2017 Big Man on Planet Competition Winners".

TRC Website

TRC has maintained a website for several years. In 2017, updated two specific features on its website.

1. TRC sign up form enhancement.

With the revelation of the new pail offering for collection sites, TRC updated it's sign up form to consolidate incoming container orders. The form consolidates location types and integrates all the information requests onto one form. There now is a one-page form for small pails and a large green bin order form. These changes streamline the process for locations ordering containers. The website was a direct beneficiary of this change by allowing for the new location to understand the sign-up easier.

2. Logic for displaying collection locations.

In the past, the database informed the zip code finder which locations to display. The logic for displaying available locations which collect mercury thermostats was very complicated and cumbersome. In 2017, we reduced the complexity by allowing our database to create a static check mark option for displaying on the website. This enhancement was a direct result of locations which were concerned about displaying to the public, HHW's which had complicated location management, and HVAC contractors which did or did not want to be displayed.

2017 Trade Shows, Conferences, And Presentations

TRC staff attended, exhibited, sponsored and/or presented at the following national events:

Date	Event	Location	Description
January			
30th -1st	Air-Conditioning, Heating, and Refrigeration Institute Expo	Las Vegas, NV	TRC staff attended and exhibited at the largest HVAC Expo in the world.
February			
1st-2nd	Efficiency Vermont	Burlington, VT	TRC attended the event and networked with VT current and prospective collection locations.
13th - 16th	Association of Energy Service Professionals (AESP)	Orlando, FL	AESP is the premier organization for professionals in the energy efficiency industry. Over 300 industry professionals attend the event including utility professionals and industry advisors/implementers.
March			
19th	ECOS (Environmental Council of States) Webinar Presentation	Internet/Computer	TRC presented to interested parties an update on the collection program.
19th-22nd	Home Performance Coalition	Nashville, TN	TRC attended the conference and joined over one thousand residential energy efficiency professionals for networking.
20th-22nd	IE3: Indoor Environment & Energy Expo	Nashville, TN	This expo is the largest marketplace for the indoor environmental and energy services contracting industry. TRC staff exhibited and promoted the program to attending HVAC contractors.
27th	Mass Recycle Event	Framingham, MA	TRC exhibited at Recycling & Organics Conference & Trade Show, the biggest annual recycling and organics conference in the Commonwealth of Massachusetts.

April			
6th	Association of NJ Household Hazardous Waste Coordinators	Ocean County, NJ	TRC presented to the members of the ANJHHWC on the recycling program.
24th-25th	Maine Resource Recovery Association	Rockport, ME	TRC sponsored this conference where experts and service providers from across the spectrum of the recycling and solid waste industry come to address current topics in materials management.
25th	Plumbing, Heating, Cooling Contractors (PHCC) Expo	Pleasanton, CA	TRC exhibited at this expo attended by contractors.
May			
21st-25th	Eastern Energy Expo (OESP)	Hershey, PA	TRC attended the trade show that offers the latest products and services for the petroleum marketing and HVAC industry.
23rd	Heating, Air-conditioning and Refrigeration Distributors International (HARDI) fly-in	Washington, DC	TRC meet with representatives alongside HVAC industry professionals to affect policy and make a difference.
June			
15th	AESP Mid-Atlantic Seminar	Newark, NJ	TRC attended the local seminar for energy efficiency professionals.
24th-27th	Building Owners and Managers Association International (BOMA) ³	Nashville, TN	TRC attended this commercial real estate conference focused on innovative solutions and cost-cutting strategies.
26th-28th	National Energy & Utility Affordability Coalition (NEUAC)	Ft. Lauderdale, FL	TRC attended the conference where over six hundred leaders within the energy assistance community gather to share solutions.
July			
19th	Local Rotary	Montgomery County, PA	TRC presented to the local rotary club on our recycling program.
25th-26th	Product Stewardship Institute (PSI) Forum	Boston, MA	TRC presented at the forum where they discuss current product stewardship trends in the U.S.
26th-28th	Professional Recyclers of Pennsylvania (PROP) Conference	Valley Forge, PA	TRC presented a session on mercury thermostats at the event where you can connect with solid waste and recycling professionals from throughout Pennsylvania and surrounding states.
August			
9th-11th	Missouri Recycling Association Conference	Osage Beach, MO	TRC's board member, John Sartain, presented on the mercury thermostat recycling program.
12th - 15th	American Society of Association Executives (ASAE) Conference	Toronto, Canada	TRC's executives attended the annual meeting where thousands of association professionals and industry partners gather to exchange time, resources, strategies, solutions, and more.
14th-17th	North American Hazardous Materials Management Association (NAHMMMA)	Clearwater, FL	TRC exhibited at the national conference that brings together hazardous waste professionals, buyers, and industry leaders from municipal collection programs throughout the US.

³ 2016-2017 Program Modifications required advertising in this publication for the Other Buildings Types outreach; Schools, Universities, and Property Management Companies of Multi-Family Housing

FY 2017 – ILLINOIS ANNUAL REPORT

17th	APR Supply Show	Hershey, PA	TRC exhibited at the APR buying show.
20th-23rd	California Resource Recovery Association (CRRRA) Conference	San Diego, CA	TRC attended the conference about recycling and sustainable materials management in California.
30th	Product Stewardship Meeting	Washington, DC	TRC's Executive Director met with other EPR Executives, such as Cal2Recycle and PaintCare, to discuss best practices and joined efforts.
September			
17th-19th	HARDI (Sales and Marketing)	Philadelphia, PA	TRC attended and exhibited at the conference where HVAC leaders learn about leveraging emerging.
October			
4th-6th	Plumbing, Heating, Cooling Contractors (PHCC) Expo	Milwaukee, WI	TRC attended this expo along with many HVAC contractors.
25th- 27th	National Multifamily Housing Council Expo ⁴	Las Vegas, NV	TRC attended this expo with leaders in the apartment industry.
26th-27th	Keystone Energy Efficiency Alliance (KEEA) Conference	Hershey, PA	TRC attended the conference that is dedicated to promoting the energy efficiency and renewable energy industries in Pennsylvania.
November			
2nd	Institute of Heating and Air Conditioning Industries (IHACI) Annual Trade Show	Pasadena, CA	TRC exhibited at this show attended by many experts in the HVAC industry.
2nd	AESP - Strategies for Delivering Marketing Excellence Conference	Philadelphia, PA	TRC attended a training in regards to marketing with the utility sector.
12th - 15th	National Association of Regulatory Utility Commissioners Annual Conference	Baltimore, MD	TRC exhibited at the conference where members gather to set policy, share best practices, and discuss crucial industry issues.
15th	Product Stewardship Meeting	Washington, DC	TRC's Executive Director met with other EPR Executives, such as Cal2Recycle and PaintCare, to discuss best practices and joined efforts.
21st	Keep Philadelphia Beautiful Meeting	Philadelphia, PA	TRC staff met with KPB's Executive Director to discuss areas of opportunity.
December			
2nd - 5th	Heating, Air-conditioning and Refrigeration Distributors International (HARDI) Annual Conference	Las Vegas, NV	TRC staff again exhibited at this event and presented its annual "Big Man on the Planet Award."

2017 Promotional Items

TRC distributed a little over 500 can koozies while exhibiting at various expositions throughout 2017. [Figure 1.13]

⁴ 2016-2017 Program Modifications required advertising in this publication for the Other Buildings Types outreach; Schools, Universities, and Property Management Companies of Multi-Family Housing

Figure 1.13

OTHER ENGAGEMENT

Product Stewardship Institute (PSI)

TRC worked in collaboration with PSI throughout the year of 2017 by being a panelist on two webinars, contributing the TRC name to outreach efforts in which PSI was awarded through the USDA, and by speaking at the PSI bi-annual Forum held in Boston, MA. TRC staff Ryan Kiscaden, Danielle Myers, and Tom Murray shared their expertise for these various presentation platforms.

Environmental Protection Agency (EPA) expert, Tom Murray, represented TRC as a presenter for the Product Stewardships Institute's (PSI) April 19th webinar. Murray, specifically, gave a historical overview about mercury and underscored the heightened role of industries, such as combustion coal, contributing to environmental contamination. Murray also detailed how TRC works in conjunction with statewide regulatory programs throughout the U.S. and explained that mercury-containing thermostats is an issue with an end in sight.

Ryan Kiscaden presented at the PSI's bi-annual forum (July) on the subject of mercury thermostat collections present and future. At this event, he introduced the concepts of which mercury thermostats largely are collected from (boiler systems in cold, very-cold climate zones) and his vision for the future collection program's focus.

Danielle Myers administered the webinar in which industry and government entities shared ways to improve outreach and education to increase recycling and decrease waste. From print media (such as flyers and brochures) to web-based media (such as social platforms, video, and infographics), outreach and education the webinar detailed proven ways at increasing thermostat collection.

TRC lent its name to PSI grant proposal “Reducing the Impact of HHW on Water Resources in Low-income, Rural Communities” directed to the USDA and also contributed thought leadership time on best ways to approach rural communities. PSI’s grant attempted to place recycling containers with the following areas:

1. Alutiiq Tribe of Old Harbor, AK
2. Del Norte County, CA
3. Inyo County, CA
4. Lassen County, CA
5. Mendocino County, CA
6. Hazard, KY
7. Town of Lincoln (in Penobscot County), ME
8. Town of Hartwick, NY
9. Malheur County, OR
10. Walden, VT
11. Chelsea, VT
12. Woodbury, VT
13. Quilcene, WA
14. Brinnon, WA
15. Klickitat County, WA

At the end of 2017, TRC signed a letter of support for PSI to apply for similar USDA grants. The letter dated December 18, 2017 detailed the support of the Product Stewardship Institute’s application for funding through the (USDA) Rural Utilities Services’ fiscal year 2018 Solid Waste Management Program.

PROMOTIONAL CAMPAIGNS

Big Man on Planet Competition

HARDI members, comprising more than 1,000 distributor locations nationwide, competed against one another for top honors. In 2017, TRC had 102 Wholesale Members participate in the competition (compared to 24 the year before), who collected a whopping 370.95 lbs. of mercury during May 1st through October 31st. Winners were announced at HARDI’s annual conference, December 2nd – 5th, in Las Vegas.

The 2017 BMOP Award winners were as follows:

TOP PRIZE WINNERS

- Most amount of mercury recycled overall (157.16 pounds) – Johnstone Supply, National
- Highest average amount of mercury recycled (12.3566 pounds) – Tower Equipment, Connecticut
- Highest participation rate for distributors with over 10 locations (92%) – Johnson Supply, Texas and Louisiana [Figure 1.14]

Figure 1.14

TOP 3 BRANCHES FOR RECYCLING

- Tower Equipment - Stratford, Connecticut (12.3566 lbs.)
- Johnstone Supply - Appleton, Wisconsin (6.6588 lbs.)
- Johnstone Supply - Columbus, Ohio (4.774 lbs.)

MVP AWARD

- Aireco Supply Co. (11 lbs. of mercury across 22 locations)

ROCK STAR AWARD

- Aireco Supply Co.
- APR Supply Co.
- Auer Steel & Heating Supply
- Corken Steel Products Co.
- Crescent Parts & Equipment Co.

- Duncan Supply Co.
- Ferguson Enterprises
- Gustave A. Larson
- GW Berkheimer Co.
- Harry Alter Co.
- Johnson Controls UPG Parts Store
- Johnson Supply
- Tower Equipment
- US Air Conditioning Distributors

* Note - Johnstone Supply an industry specific catalogue featured TRC's BMOP Campaign at no-charge to TRC. [Figure 1.15]

Figure 1.15

2018 PROGRAM MODIFICATIONS

Thermostat Recycling Corporation's 2018 Goals

TRC has continued to set high level annual goals for the organization. These goals assist in decision making and prioritization of activities. For the calendar year of 2018 TRC plans to focus on:

1. Continuing to fulfill state statutory requirements, agreements and other arrangements for regulatory compliance.
2. Targeting mercury thermostat collections at (3) key industries; Utilities, waste-related sector, and HVAC. Other key audiences vary by state and requirements.
3. Finishing business intelligence upgrades to systematizing operations and data reporting.
4. Elevating the TRC staff by investing in skills, experiences and continuing educational opportunities.
5. Maintaining and building relationships with key stakeholders (regulatory, members, collection points, and vendors)

In addition to these goals, TRC set specific tasks which we plan to focus on. Completion of these tasks aids in the overall organization's goals.

1. Finalize new database. These enhancements to our database include:
 - Tracking small bins
 - Tracking clear vs. green liners
 - Consolidating all CRM's into one package
 - Importation of all historical data
 - Overlaying collections to climate zone
2. Develop and finalize utility industry specific marketing collateral.

This industry will require three specific pieces of collateral. The pieces will be geared towards the utilities themselves, the installers/implementers, and the community action agencies. The collateral will be valuable leave behind materials for upcoming trade shows and direct marketing initiatives.

3. Look for opportunities to switch collection points to small pails.

The staple green recycling container will remain an option for all collection locations. This container has been a part of the organization's branding, its mechanism for compliance, and is the largest container available in meeting DOT shipping regulations for universal

waste. However, a smaller recycling container can help resolve rural collection issues and provide an additional, perhaps desirable collection mechanism for others.

4. Audit our processing facility every other year.

TRC gained great operating efficiencies by walking the processing floor and looking for ways to improve the program's performance. The processing center was audited in 2017 and we plan to audit in 2019.

5. Attend 2018 events such as trade shows and conferences.

Arguably, one of the best avenues for TRC. Continuing to grow relationships while displaying our wares, networking, and attending conferences continues to be a great investment for the program. Below is a list of events which TRC likely will attend or exhibit at.

Date	Show	Location
January		
22nd-24th	AHR Expo	Chicago, IL
February		
7th -9th	MEEA	Chicago, IL
7th-8th	Efficiency Vermont	South Burlington, VT
12th-14th	IE3 Show (ACCA)	Washington, DC
13th-14th	Home Performance Contractors - New York	Saratoga Springs, NY
19th-22nd	Association for Energy Services Professionals	New Orleans, LA
March		
5th - 7th	SWANA-Palooza	Denver, CO
10th	Plumbing, Heating Cooling Contractors of MA	Marlboro, MA
26th	Mass Recycle Trade Show	Framingham, MA
26th-28th	HVAC Excellence Educators Conference	Las Vegas, NV
April		
23rd-26th	Home Performance Contractors - National	Philadelphia, PA
May		
8th-9th	BuildingsNY	New York, NY
20th-23rd	NY FEDERATION Conference	Sagamore, NY

22-23	HARDI Fly-In	Washington, DC
June		
25th-27th	NEUAC Conference	Phoenix, AZ
July		
25th-27th	Professional Recyclers of Pennsylvania	Harrisburg, PA
August		
27th-31th	NAHMMA - National	Portland, ME
September		
25 th – 28 th	E Source Forum	Denver, CO
October		
9th - 11th	E-Scrap Conference	New Orleans, LA
25th-26th	KEEA Conference	Harrisburg, PA
November		
TBD	NERC Conference	Hartford, CT
TBD	IHACI Annual Trade Show	Pasadena, CA
December		
1st - 4th	HARDI Annual Conference	Austin, TX

- Attend and integrate learnings from other EPR products after Executive Director in-person meetings.

TRC attends an in-person meeting in which other EPR products (paint, batteries, mattresses) also directly participate in. This meeting occurs throughout the year. TRC has derived great share-able best practices by attending these meetings and always learns something new to implement into its recycling program.

- Announce the organization's 20TH anniversary of operation.

Twenty years went by very fast. We are proud to have operated for 20 years. We plan to release this news via a press release, social media and possibly earned media. The celebration is official on October 24th but we plan to acknowledge all year.

- Build a hypothesis library.

Throughout the year, great ideas on how to modify the program are raised. A hypothesis library will allow TRC to track these ideas, develop and test them. We view this as the best curator for new innovations at the organization. It is possible items which are brainstormed using this process will be developed and fully implemented in 2018 or developed for future years.

- Target smart home automation installers with outreach and awareness.

The burgeoning marketing for IoT (internet of things) connected devices is a fast-growing market. There are many new players such as Amazon, Best Buy and Cable TV providers that are getting into the installation and sales of these new smart products. It is undetermined which entities will be installing these products.

10. Practice the internal TRC Sustainability policy.

TRC has created a sustainability policy and guidelines that support TRC as an environmental nonprofit. Some of the initiatives are:

- Using 2-sided and grayscale defaults for all office printers
- Using recycled paper 100% of the time for printing internal documents
- 100% of all marketing material printed on recycled products

11. Update the TRC website.

The project will be to enhance the searchability through Google for TRC's website. In turn, by strengthening the SEO of the website, should allow for an increase of the digital Google AdWords spend by the terms we buy to be efficient. In addition to SEO enhancement, the website will undergo a content re-organization which will tailor itself to the user's experience on the website. In theory, it should be more user-friendly.

12. Roll-out editorial releases.

ILLINOIS

2017 COLLECTIONS AND EVALUATION

SECTION 0: Program Overview

Prepared by Resource Recycling Systems (RRS)

The following analytical report details the annual program performance for mercury thermostat collection in the state of Illinois (IL) in 2017. A few of the program highlights for 2017 are included below:

- In 2017 the program **collected 83.9 pounds of mercury** in IL. Since 2008, mercury collected in IL has increased by an average of 14% per year. During the same period, total mercury collected nationally increased by an average of 4% per year.
- The program collected **10,671** whole thermostats in 2017, an 8% increase in thermostats from 2016 and a 146% increase in the last decade. The increase in number of thermostats collected annually in IL is an average of 13% since 2008.
- The number of **whole thermostats collected per bin in 2017 was 38 thermostats**. This was less than the 20-year state average of 79 thermostats per bin returned but similar to results in 2016 (41 thermostats per bin).
- The counties with the most bins and thermostats returned in 2017 were **Cook (78 bins, 3,377 thermostats), DuPage (34 bins, 1,497 thermostats) and Winnebago (16 bins, 1,048 thermostats)**.
- In 2017, **38% of the partner locations returned at least one bin** compared to a national average of 32%.
- In 2017, a total of **126 site visits were conducted in IL and 500 ‘miss you’ calls were placed**. There is no statistically significant relationship between calls and visits and bins returned.
- In addition to 10,671 whole thermostats, 1,069 loose switches were collected, bringing the total number of “thermostat equivalents” returned in 2017 to 11,575, an 8% increase over 2016.

SECTION 1: Program Analytics

Section 1 of this report examines annual performance of the thermostat collection recycling program by bins, thermostats, and mercury collected and year-over-year progression of the program.

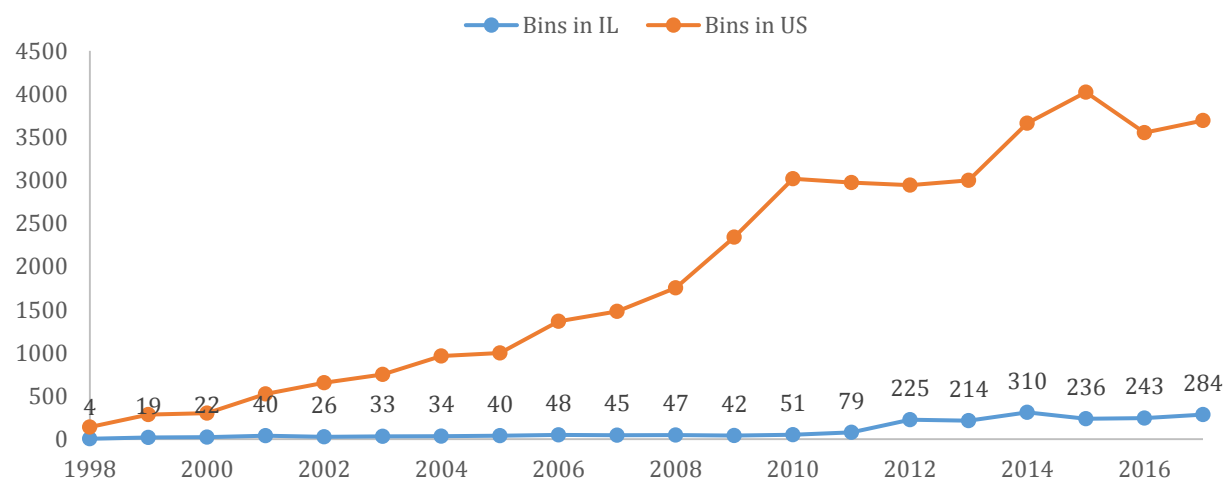

On average, the program has **collected 49.1 lb of mercury** and **6,059 whole thermostats per year** since 1998. In 2017 the program **collected 83.9 lb from 10,671 whole thermostats and 1,069 loose switches**. Figure 1.1 displays the total number of bins, the total number of thermostats, and the total quantity (lb) of mercury collected in the state since the beginning of the program.

FIGURE 1.1: PROGRAM PERFORMANCE OVER TIME

Year	Number Bins	Number Stats	Lb Mercury
1998	4	327	3.6
1999	19	1,872	14.8
2000	22	1,977	17.1
2001	40	3,635	30.1
2002	26	2,148	20.9
2003	33	3,009	23.7
2004	34	3,128	24.4
2005	40	3,863	31.8
2006	48	4,596	37.4
2007	45	4,367	32.4
2008	47	4,336	34.2
2009	42	4,149	34.3
2010	51	4,978	38.7
2011	79	7,229	58.5
2012	225	13,061	110.5
2013	214	12,479	96.1
2014	310	15,266	121.8
2015	236	10,193	88.8
2016	243	9,896	78.0
2017	284	10,671	83.9
<i>Average</i>	<i>102</i>	<i>6,059</i>	<i>49.1</i>
<i>Total</i>	<i>2,042</i>	<i>121,180</i>	<i>981.1</i>

Figure 1.2 displays the number of bins collected in the state since the initiation of the collection program, as well as the total number of bins collected in the U.S. over the same period. The number of bins collected annually in IL plateaued between 2005-2010, then rose from 2011 to 2014. In 2017 the second highest number of bins were collected with 284 bins, second to 2014 (310 bins).

FIGURE 1.2: BINS COLLECTED OVER TIME IN STATE AND NATIONALLY

Since 2008, the average of annual increases in mercury collected in IL is 14%. During the same period, the quantity of mercury collected nationally increased by an average of 4% per year. The **83.9 pounds of mercury collected in IL in 2017 was 8% higher than the 78.0 pounds collected in 2016**. Figure 1.3 displays the quantity (lb) mercury collected in the state over time as well as the annual percent increase (or decrease) in the state and the U.S. as a whole.

FIGURE 1.3: POUNDS OF MERCURY COLLECTED IN PROGRAM AND ANNUAL CHANGES IN STATE AND U.S.

Year	Total Lb Hg	% Change State	% Change U.S.
1998	3.6	N/A	0%
1999	14.8	312%	104%
2000	17.1	15%	11%
2001	30.1	77%	89%
2002	20.9	-31%	14%
2003	23.7	13%	11%
2004	24.4	3%	17%
2005	31.8	30%	11%
2006	37.4	18%	32%
2007	32.4	-13%	2%
2008	34.2	5%	16%
2009	34.3	0%	16%
2010	38.7	13%	26%
2011	58.5	51%	4%
2012	110.5	89%	-5%
2013	96.1	-13%	-5%
2014	121.8	27%	13%
2015	88.8	-27%	-1%
2016	78.0	-12%	-15%
2017	83.9	8%	-7%
<i>Average Since 2008</i>	<i>74.5</i>	<i>14%</i>	<i>4%</i>

The state of IL collected 10,671 thermostats in 2017. This was **an 8% increase over the number of thermostats collected in 2016 and a 146% increase from a decade ago.** The number of thermostats collected annually in IL has increased by an **average of 13% every year since 2008.** During the same period, the number of thermostats collected in the U.S. has increased by an annual average rate of 4% per year. Figure 1.4 displays the total number of thermostats collected in the state and nationally, and Figure 1.5 shows the underlying data as well as the calculated annual percent change.

FIGURE 1.4: NUMBER OF WHOLE THERMOSTATS COLLECTED OVER TIME IN THE STATE AND NATIONALLY

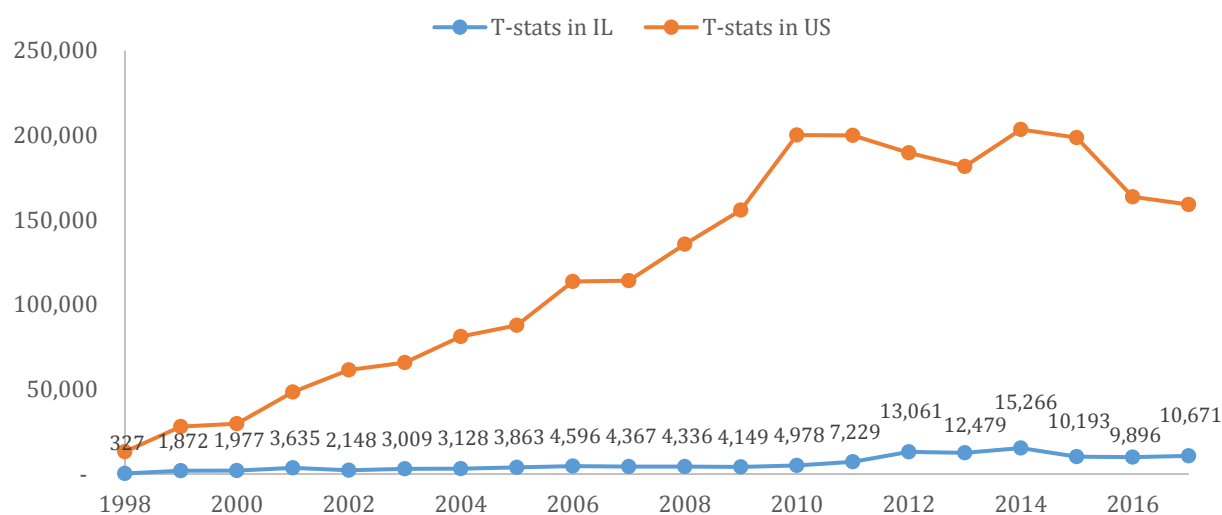

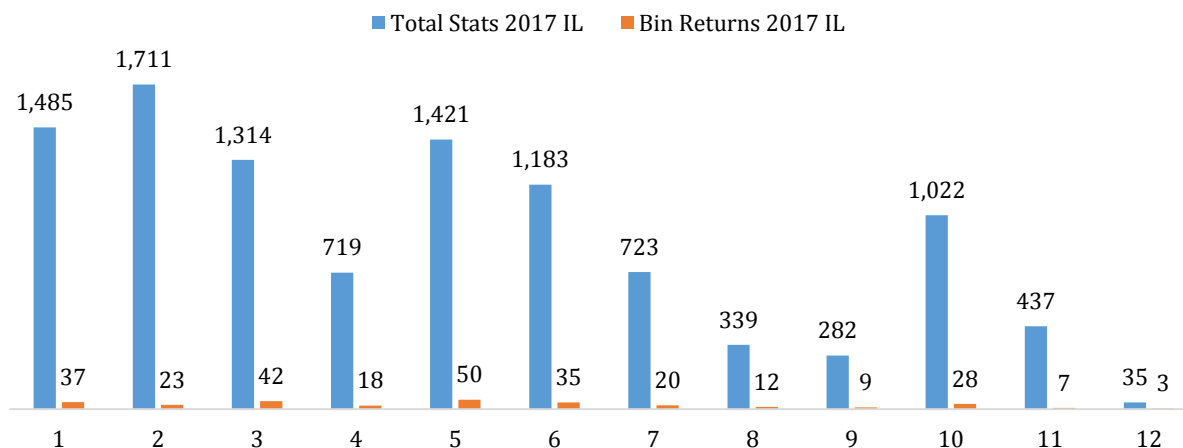

FIGURE 1.5: WHOLE THERMOSTATS COLLECTED IN IL AND U.S. OVER TIME AND ANNUAL PERCENT CHANGE

Year	T-stats in IL	T-stats in U.S.	% Change State	% Change U.S.
1998	327	13,158	-	-
1999	1,872	27,965	472%	113%
2000	1,977	29,637	6%	6%
2001	3,635	48,350	84%	63%
2002	2,148	61,422	-41%	27%
2003	3,009	65,778	40%	7%
2004	3,128	81,115	4%	23%
2005	3,863	87,754	23%	8%
2006	4,596	113,658	19%	30%
2007	4,367	114,158	-5%	0%
2008	4,336	135,646	-1%	19%
2009	4,149	155,731	-4%	15%
2010	4,978	200,064	20%	28%
2011	7,229	199,918	45%	0%
2012	13,061	189,619	81%	-5%
2013	12,479	181,600	-4%	-4%
2014	15,266	203,346	22%	12%
2015	10,193	198,603	-33%	-2%
2016	9,896	163,606	-3%	-18%
2017	10,671	159,046	8%	-3%
<i>Average Since 2008</i>	<i>9,226</i>	<i>178,718</i>	<i>13%</i>	<i>4%</i>

Figure 1.6 displays the monthly distribution of bins and thermostats collected in the state in 2017. The months with the greatest number of thermostats returned were **February (1,711 thermostats), January (1,485 thermostats), and May (1,421 thermostats)**. Conversely, the month with the least activity in 2017 was December.

FIGURE 1.6: WHOLE THERMOSTATS AND BINS COLLECTED PER MONTH 2017

The highest number of thermostats per bin returned were in **February (74 thermostats per bin)** and **November (62 thermostats per bin)**. Figure 1.7 shows the monthly average of thermostats per returned bin for the year.

FIGURE 1.7: AVERAGE THERMOSTATS PER BIN RETURNED PER MONTH

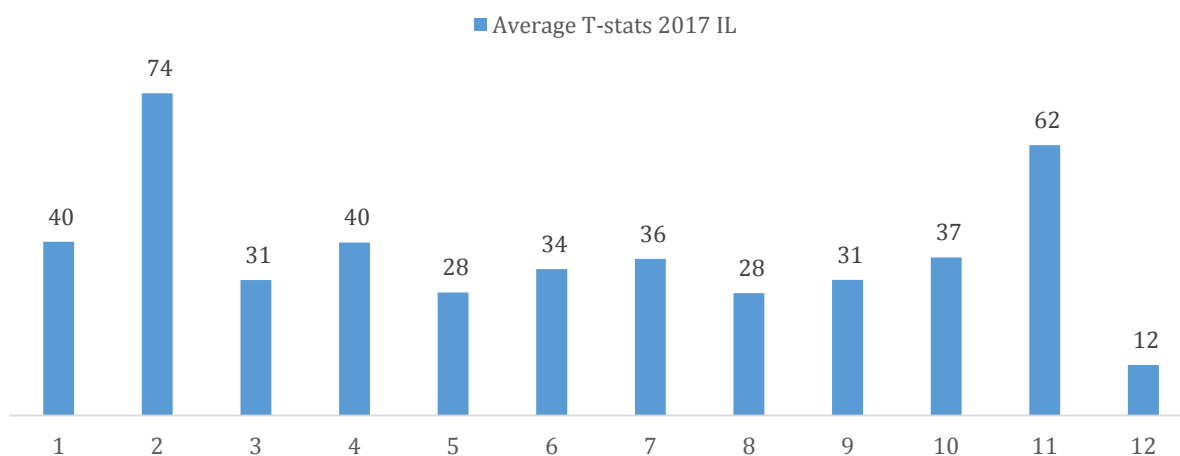

Figure 1.8 displays the average number of thermostats returned per bin in the state and in the U.S. since the beginning of the state program. Nationally, the number of thermostats per bin has been decreasing since 2000. In IL, **the number of thermostats per bin in 2017 (38 thermostats per bin avg.) was the lowest on record.** The 2017 average was below the 20-year average of 79 thermostats per bin. From 2003 to 2011, the average thermostats returned per bin in IL was greater than the national average but has since fallen below the national average. From 2013 to 2017, the average number of thermostats per bin has declined every year, as has the national average.

FIGURE 1.8: AVERAGE NUMBER OF THERMOSTATS PER BIN OVER TIME IN THE STATE AND NATIONALLY

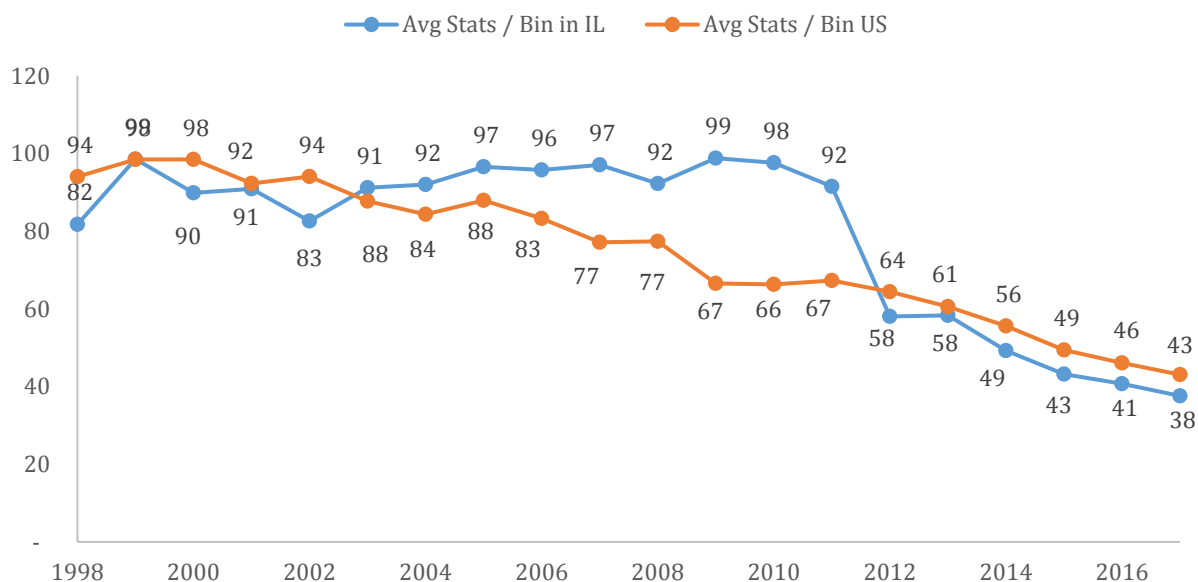

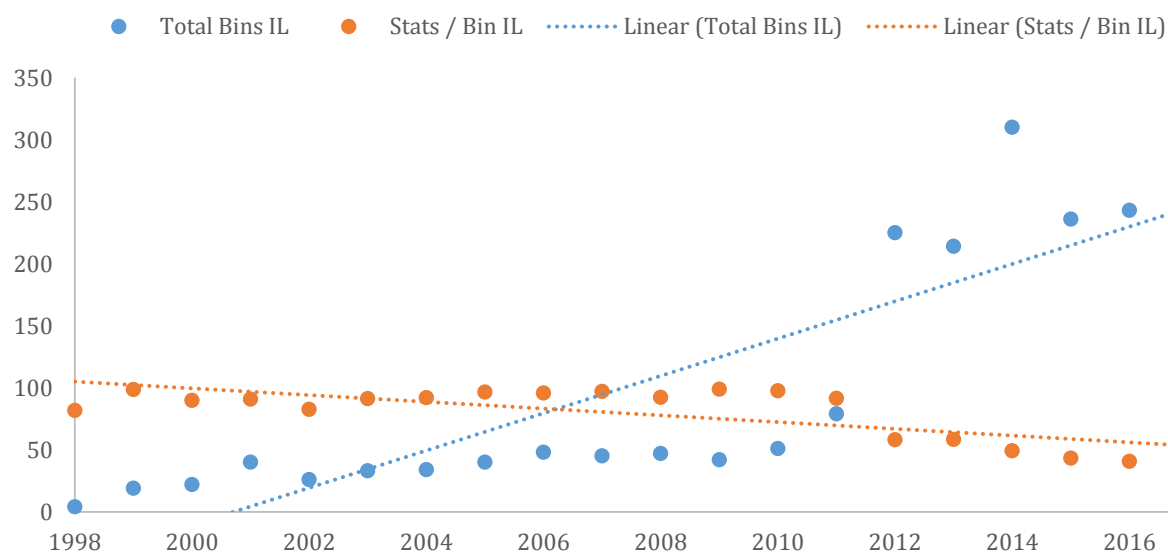

Figure 1.9 plots the total bins returned from 1998 to 2017 to the number of thermostats per bin and illustrates a negative correlation between the two metrics. The number of bins returned in IL grew slowly from 1998 to 2011, then underwent a rapid jump to 225 bins per year in 2012. In that same period, thermostats per bin decreased from a high of nearly 100 thermostats per bin in 2006 and 2007, to 38 thermostats per bin in 2017. A statistical analysis found a strong negative correlation between number of bins returned and number of thermostats per bin. The negative correlation is driven by the changes in bins and thermostats per bin since 2012.

FIGURE 1.9: TOTAL BINS AND AVERAGE NUMBER OF THERMOSTATS PER BIN OVER TIME

A climate zone analysis on number of thermostats returned per 10,000 residents was conducted. These zones were defined using the criteria from U.S. Department of Energy Building America Program. These criteria are coded by county. The entire state of IL is in the cold very cold climate zone. Figure 1.10 shows that stated returned 9.4 thermostats per 10,000 residents which is slightly below the national average in the cold very cold zone of 10.9 thermostats per 10,000 residents. Nationally, the cold very cold zone returned significantly more thermostats than the next highest zone, the mixed humid zone (6.2 thermostats per 10,000 residents).

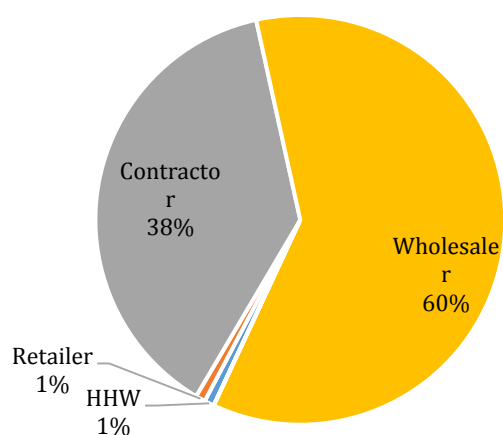

FIGURE 1.10: THERMOSTATS RETURNED PER 10,000 RESIDENTS BY CLIMATE ZONE

SECTION 2: Channel Partner Analysis

Section 2 of the report examines the partner locations in more detail. Most thermostats collected in the state were through **wholesalers (60%)** with the remaining thermostats collected by **contractors (38%)**, and a small portion by **household hazardous waste facilities (1%)** and **retailers (1%)**. Figure 2.1 shows the distribution of thermostats collected by location type in 2017.

FIGURE 2.1: THERMOSTATS COLLECTED BY LOCATION TYPE IN 2017

The number of bins **returned by wholesalers increased from 141 bins in 2016 to 177 bins in 2017**. The number of bins returned by contractors also increased in 2017, from 62 bins in 2016 to 90 bins. At the same time there was a decrease in bins returned from retailers 35 to 11 bins for retailers. The bins returned by HHW facility has remained low and relatively the same for the last 10 years, ranging from 1 to 7 bins returned. Figure 2.2 displays the change in the number of bins returned by thermostat collection type over time in the state.

FIGURE 2.2: THERMOSTAT BINS RETURNED BY LOCATION TYPE OVER TIME

In 2017, **38% of the locations** that had a bin in the state of IL sent back at least one bin for recycling. The distribution is displayed in Figure 2.3.

FIGURE 2.3: PERCENTAGE OF STORES RETURNING A BIN IN 2017

An analysis of the top performing counties revealed that **Cook County (78 bins, 3,377 thermostats)**, followed by **DuPage County (34 bins, 1,497 thermostats)** and **Winnebago County (16 bins, 1,048 thermostats)** returned the greatest number of bins and thermostats in 2017. Lake County tied with Winnebago County for the 3rd most number of bins returned (16 bins each). Figure 2.4 displays the total number of bins and thermostats returned by county in 2017.

FIGURE 2.4: BINS RETURNED AND TOTAL THERMOSTATS RETURNED IN 2017 BY COUNTY

County Name	Total T-Stats	Total Bins	County Name	Total T-Stats	Total Bins
Cook	3,377	78	Livingston	46	3

TRC channel partners **Johnstone Supply (1,885 thermostats)** and **CLEAResult (1,023 thermostats)** returned the highest number of thermostats in the state in 2017. **Franklin Energy Services (884 thermostats)**, **G.W. Berkheimer Company (744 thermostats)**, **Munch's Supply Company (673 thermostats)** and **Rogers Supply Company (558 thermostats)** returned more than 500 thermostats each. Additionally, 14 other program partners returned more than 100 thermostats each, 67 program partners returned 10 or more, and 21 partners returned fewer than 10 thermostats. Figure 2.5 displays the top performing partners in terms of total thermostats returned in 2017.

FIGURE 2.5: 10 TOP PERFORMING TRC PARTNERS IN THE STATE

Figure 2.6 displays top performers in a more detail. The figure includes the top performers for the year by each of the following categories: total bins returned, total thermostats returned, and average number of thermostats per bin.

FIGURE 2.6: TOP PERFORMING PARTNERS BY TOTAL BINS, TOTAL THERMOSTATS, AND THERMOSTATS PER BIN

Company Name	No. of Thermostats	No. of Bins	Thermostats / Bin
Johnstone Supply	1,885	30	63
CLEAResult	1,023	13	79
Franklin Energy Services	884	6	147
G.W. Berkheimer Company	744	11	68
Munch's Supply Company	673	11	61
Rogers Supply Company	558	11	51
Harry Alter Co./National Excelsior	326	14	23
Moore Supply Company	219	4	55
G & O Thermal Supply Company	156	4	39
All-Temp Chicagoland Heating & AC	153	1	153

TRC conducted several activities in 2017 to increase the number of bins and thermostats returned in the state. These activities included site visits and ‘miss you’ calls to collection locations that may not have returned a bin recently. In 2017, a total of 126 site visits were conducted in IL and 500 ‘miss you’ calls were placed. Figure 2.7 displays the relationship between the number of site visits per month, the bins returned per month, and the number of thermostats (in 100’s) returned per month. Site visits occurred in June and July. Some visited locations also received a call in May and/or July. Nearly all the bins returned from visited locations came from locations that were also called.

FIGURE 2.7: RELATIONSHIP BETWEEN SITE VISITS AND BINS AND THERMOSTATS RETURNED PER MONTH

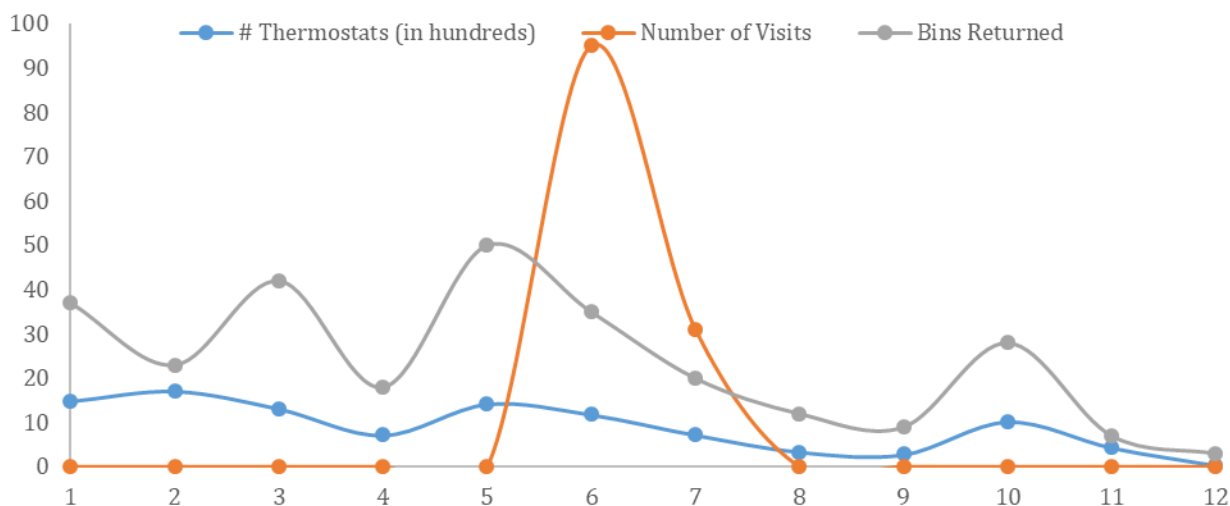

Figure 2.8 displays the relationship between the number of calls, the bins returned, and the number of thermostats (by 100's) returned by month. Calls were placed in May and July, and more than half (54%) of the bins returned by these locations came in between those same months.

FIGURE 2.8: RELATIONSHIP BETWEEN 'MISS YOU' CALLS AND BINS AND THERMOSTATS RETURNED PER MONTH

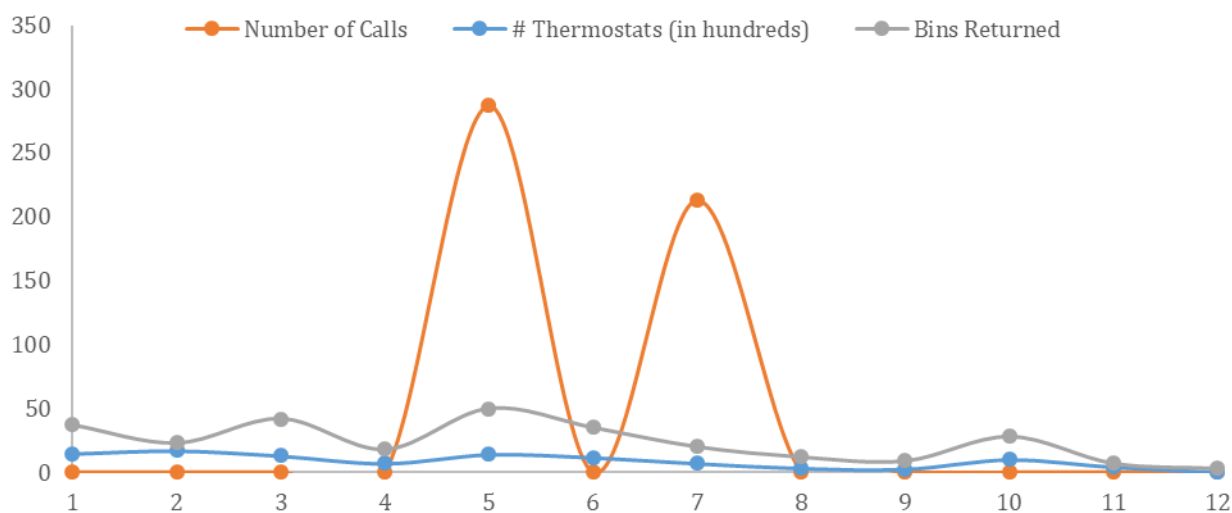

Figure 2.9 examines the return rates of four groups – locations that did not receive a call or visit, locations that received at least one visit, locations that received at least one call, and locations that received both a call and visit. The rate of active participation (which refers to locations that returned at least one bin) in 2017 was greater for locations that received both a call and visit than locations that did not received either. However, locations that received only a visit had an active participation rate of 13%, significantly lower than any other group. Additionally, called locations had a similar active participation rate as locations that did not received a reminder. Overall, it is not clear that reminding participating locations either through phone calls or visits impacted returns.

FIGURE 2.9: PERCENT CHANGE IN BIN AND THERMOSTAT RETURNS FOR LOCATIONS THAT RECEIVED A VISIT OR CALL OVER LOCATIONS THAT DID NOT RECEIVE EITHER

	No Visit or Call	Visit	Call	Visit & Call
Number of Participating Locations	231	60	238	67
Rate of Active Participation*	40%	13%	39%	49%
Bins per Participating Location	0.5	0.2	0.4	0.7
Thermostats per Participating Location	22	7	13	47
Thermostats per Bin	40	47	28	65

*Fraction of participating locations that returned one or more bins during 2017

SECTION 3: Comparisons to National and Other States' Data Performance

To compare how the state collection partners performed in 2017, the national average for the number of bins returned per locations that returned at least one bin was calculated and compared to the state average since 2012. The average number of bins does not include locations that did not return any bins in a given year. It should be noted that when making comparisons each state has different regulations, different mix of housing types, local policies, and incentives which may have a unique impact on returns. Overall, the average number of bins returned per location per year was lower in IL than the U.S. average, as shown in Figure 3.1.

FIGURE 3.1: AVERAGE NUMBER OF BINS RETURNED PER LOCATION PER YEAR

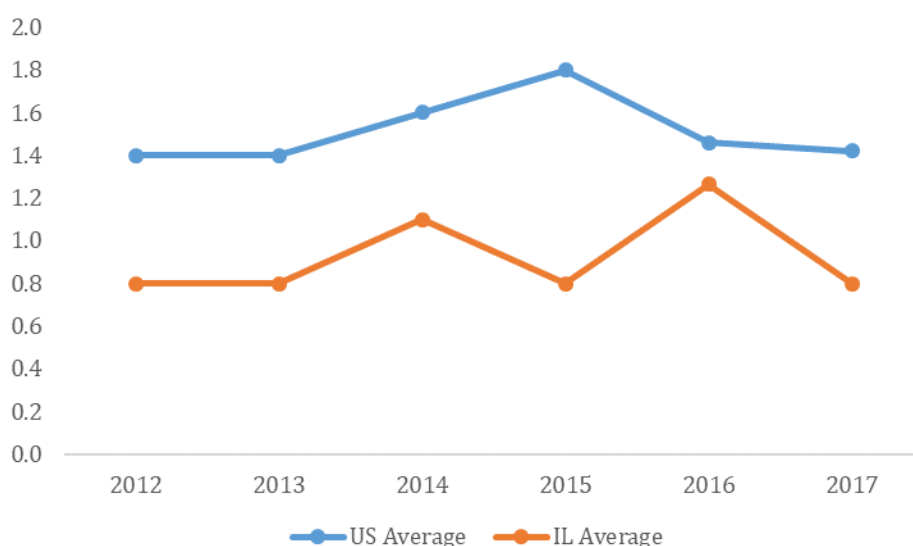

Figure 3.2 displays the top 10 performing locations in IL in 2017 and top locations since 2014. Figure 3.3 displays the top 10 partners in the U.S. over the same period in terms of the number of bins returned. Johnstone Supply appears on both the state and the national lists.

Figure 3.4 displays total percentage of locations that actively participated in the program (active participation defined as sending back at least one bin) in 2017, for all the states that mandate thermostat returns reporting as well as the U.S. national average for all states (reporting and non-reporting). In 2017, **38% of the locations in IL returned at least one bin** compared to a **national average of 32%**. The highest percentage of locations returning a bin in 2017 amongst states that mandate thermostat returns reporting was Rhode Island (61%).

FIGURE 3.4: MANDATORY REPORTING STATES' PERCENTAGE OF LOCATIONS RETURNING A BIN IN 2017

Figure 3.5 compares state and national rates for several analytics in 2017. These include: total whole thermostats, bins, and loose switches collected, number of thermostats collected by total locations and per actively participating locations, number of thermostats per bin returned on average in 2017, equivalent average, number of mercury thermostat equivalents returned in 2017 and finally percent change in mercury thermostat conversion from 2016 to 2017. The equivalent average is an average of the number of switches in whole thermostats collected in the state, and it is used to calculate the number of thermostats represented by returned loose switches. The thermostat equivalent number includes the totals of whole thermostats returned plus the number of thermostats estimated from loose switches. The states displayed are those that mandate thermostat returns reporting and the U.S. average is for all states that return bins (reporting and non-reporting).

FIGURE 3.5: COMPARISONS OF MANDATORY REPORTING STATES AND U.S. AVERAGES AMONG SEVERAL CATEGORIES

State	Whole Thermostats	Bins	Loose Switches	Thermostats returned per total # of locations with bins	Average Thermostats/bin	Average Thermostats collected per location that returned at least one bin in 2017	Equivalent Average	Thermostat Equivalents in 2017	% Change over 2016

VT	2,579	130	24	12	20	23	0.9096	2,605	13%
U.S. Avg.	6,423	166	633	23	42	58	1.4461	6,881	14%

Figure 3.6 further compares this state and national data by showing how each state ranked in each of these categories, from highest to lowest. Illinois ranked in the top three and above the U.S. average in the number of whole thermostats, bins and loose switches returned, as well as the thermostat equivalents in 2017. The states compared are those that mandate thermostat returns reporting and the U.S. average is for all states that return bins (reporting and non-reporting).

FIGURE 3.6: COMPARISON OF MANDATORY REPORTING STATES AND U.S. AVERAGE AMONG SEVERAL CATEGORIES, RANKINGS

2017 COLLECTIONS BY BRAND

In Illinois, Thermostat Recycling Corporation (TRC) recovered the equivalent of 11,575 mercury thermostats from 10,671 whole mercury thermostats plus 1,069 mercury switches removed from thermostats. A total of 83.9 pounds of mercury was diverted from solid waste. In 2017, per the regulation promulgated by ILEPA, TRC was to collect 30,000 mercury containing thermostat equivalents.

*Please note the explanation of the converted thermostats or thermostat equivalents below.⁵ An example of the mercury ampoule is shown in [Figure 4.0].

Figure 4.0

As required by the state statute, a table of thermostat brand holder with the corresponding thermostats, count of switches and pounds of mercury recycled is below. It is important to note that there still remain non-members whose thermostats the TRC collection program recycles. They are listed in the table as “Non-Member Brands”.

⁵ A mercury thermostat contains a variable amount of mercury ampoules or “switches” attached to the subbase of the thermostat. These glass ampoules often times are collected in the recycling container without the intact thermostat attached to them. TRC collects and counts these loose ampoules and recycles them. To derive the converted thermostat or thermostat equivalent, the program takes the following calculations to develop the converted thermostat or thermostat equivalent. First, TRC will count the total whole (intact) thermostats collected in the recycling bins. From these units, there is an intact ampoules count. TRC then takes the intact ampoules divided by the whole (intact) thermostats or otherwise known as the conversion ratio. After the conversion ratio is calculated, TRC will multiple the loose mercury switches by the conversion ratio. Lastly, we add this result to the whole (intact) thermostats to produce the converted thermostats or thermostat equivalents.

2017 ACCOUNTING OF THE PROGRAM EXPENSES

Below is a summary of program expenses for the Illinois collection program in 2017. 2017 program expenses are unaudited and are for management purposes only. Prior to submittal of this annual report, the expenses were reviewed by Halt, Buzas & Powell, LTD.

Program Component	2016	2017	Difference (\$'s)
Direct Expense for Marketing & Outreach	5,289	42,834	37,545
Incentive/Promotional Payments	-	-	0
Legal	-	96,307	96,307
New Collection Containers	-	-	0
Recycling Costs	16,779	40,590	23,811
Travel	3,369	1,416	(1,953)
TRC Staff and Administration	15,250	13,508	(1,743)
Total (expenses)	40,687	194,655	153,968

TRC Staff and Administration: Any costs for a specific state will take the hours worked at the TRC employee level multiplied by each individual's hourly rate.

2017 EDUCATION AND OUTREACH

DIRECT MARKETING (EMAIL, MAIL, OTHER COMMUNICATIONS)

Current Collection Locations

Collection Containers - From Big Bins to Small Pails.

- TRC shipped 27 NEW small pails and 12 NEW large bins.

The large, green bins which have been the staple of the program, continued to be replenished to collection locations throughout the state. Often times these new bin orders coincide with Accounts that open new stores, move or lose their existing containers.

- On 5/17/2017, TRC mailed to 485 current and active collection locations a poster to re-hang in their buildings.⁶

Collection Location Outbound Phone Calls

- Completed 500⁷ calls to encourage returning the recycling container compared to 186 a year prior. A copy of the sites called can be found in the Appendix section of the annual report.

Collection Location Postcards

- Mailed 840 reminder postcards to ship the compared to 484 a year prior.
- Emailed 358 collection locations after receiving the postcard.⁸

Collection Location Site Visits

- Visited 126⁹ collection locations compared to 29 in 2016. A copy of the sites visited can be found in the Appendix section of the annual report.
- Prior to HVAC contractor visits, TRC sent 49 letters informing them of our anticipated date to stop in and ship their bin.¹⁰
- Results of the on-site survey administered can be found as Appendices – 2016-2017 Program Modifications On-Site Survey. TRC secured 42 surveys in 8 counties.

⁶ 2016-2017 Program Modifications required to be sent to all active collection locations. A letter offering the poster in Spanish was sent together in the package.

⁷ 2016-2017 Program Modifications required 250 calls.

⁸ 2016-2017 Program Modifications required we send postcards every four months and after two weeks a follow-up email to be completed.

⁹ 2016-2017 Program Modifications required we visit 25% of ALL location types.

¹⁰ 2016-2017 Program Modifications required to either direct mail HVAC contractors or (where applicable) visit. TRC ended up visiting (48) HVAC Contractors of the (126) total visits.

Overwhelming the responses came from HVAC wholesalers. Of the noteworthy responses;

- 25% of HVAC wholesaler customers bring back mercury thermostats.
- Almost 100% of respondents stated that their customers bring less than 1 thermostat a week.
- Venting refrigerant was seen as a larger risk to the environment 88%, than recycling mercury thermostats 59%.
- Majority answered they were “somewhat” or “very familiar” with the Thermostat Recycling Corporation and 78% answered that they were familiar with the Illinois state law on recycling mercury thermostats.

HVAC Industry

- HARDI wholesale branch location clean-out mailing. Mailed 120 direct letters to wholesale distributors to direct them to clean-out any remaining mercury thermostat inventory.
- Sent 120 HVAC contractors a mailing providing free TRC recycling bins.¹¹
- Provided handbook materials to the Air Conditioning & Cooling Contractors of America (ACCA) and the Plumbing, Heating, and Cooling Contractors (PHCC) handbook materials which were to update requirements for employment¹².
- Sent to Johnstone Supply in Rockford, IL (which historically has been the largest collection point in country) beer cozies, posters, and additional promotional materials.

Utility Industry

- ComEd’s “*Million Thermostat Initiative*”:
 - Participated and assisted ILEPA in arranging a utility engagement stakeholder conference call on 6/14.¹³ The call included the following utility companies; ComEd, Nicor Gas, Ameren, and Elevate Energy. During the conversation and subsequent follow-ups, TRC offered to provide marketing materials which educate utility customers about the program (billing inserts, flyers, and text for website). As an example, Nicor Gas provided thermostat rebate form but never updated the form with TRC information. TRC also provided sample legal language which could assist in monitoring compliance from direct installation measures which win RFP’s¹⁴.
 - Developed marketing collateral for utility and implementers. This collateral was developed as brochures¹². TRC uploaded and created a YouTube video for DIY installers https://www.youtube.com/watch?v=R_fhgxanqs¹². TRC developed trade articles but they were not picked up prior to the conclusion

¹¹ 2016-2017 Program Modifications required TRC to send a mailing to HVAC contractors.

¹² 2016-2017 Program Modifications required TRC to develop and provide these materials to both ACCA and PHCC. ACCA provided proof of free bin mailings on their letterhead.

¹³ 2016-2017 Program Modifications required a kick-off meeting with this group.

¹⁴ 2016-2017 Program Modifications required these marketing tools to be developed and offered.

of the program modification period with AESP and MEEA. In 2018, TRC was able to secure AESP to publish an article about the program. During the course of the year, TRC designated the Center for Eco-Technology (CET) to represent TRC at utility events¹⁵.

- Became involved with the Illinois Stakeholder Advisory Group (SAG) and participated in a few conferences calls on a one topic subject of thermostats. Purpose of these meetings were to learn about process for recommending new content for technical reference manuals (TRM). TRC provided comments on requiring thermostat recycling which was delayed to be heard in these calls.
- On 5/19, spoke with David Brightwell from the Illinois Commerce Commission (Illinois's equivalent to a public utility commission) on including requirements for thermostat recycling. After the call, TRC provided public comments on the rule-making 16-128B requiring Energy Efficiency Measures for Installers to include mandates for mercury thermostat recycling. The outcome from the call is that the ICC would not be taking proactive regulatory positions on promoting current state laws such as mercury thermostat recycling.¹⁶
- Purchased a report from Cadmus which summarized sector, utility, type of install, and contact information on thermostat replacement programs¹⁷ [Figure 4.1]. From this list, known implementers and trade allies were offered free collection containers.
- Obtained membership with MEEA¹⁸

¹⁵ 2016-2017 Program Modifications required TRC to designate a person in charge of managing AESP and MEEA relationship.

¹⁶ 2016-2017 Program Modifications required a conversation to occur.

¹⁷ 2016-2017 Program Modifications required TRC to purchase this report.

¹⁸ 2016-2017 Program Modifications required TRC to become a member of MEEA to attend regional events.

- Sent 721 known home performance contractors information on how to use the TRC program including signing up directly¹⁹.
- Sent an informational email to known utility implementers on the program.
- Directly marketed to 35 community action agencies.
- Sent an email to the Illinois Department of Commerce on the Illinois Home Weatherization Assistance Program (IHWAP) without any response.

Household Hazardous Waste (HHW) Industry

- Mailed 8 HHW's in the state a copy of the HHW Infographic explaining the program.²⁰

¹⁹ 2016-2017 Program Modifications required TRC to send this mailing.

²⁰ 2016-2017 Program Modifications required the mailing to be sent in conjunction with the collection location posters.

- Each HHW was provided an opportunity for TRC to offset their local advertising and work together on a campaign. TRC did receive any engagement from the HHW's and did not deliver on any carbon off-setting credits²¹. See Appendices - CET Activity Report.
- Reviewed North American Hazardous Materials Management Association (NAHMMA) tools and membership. Presented a joint presentation with Skumatz Economic Research Associates at the national NAHMMA event²².
- Posted information on environmental NGO's web pages¹⁹ after discussion with Keep Northern Illinois Beautiful phone meeting. The outcome of the meeting was that they weren't sure on ways to work together.
- CET called on each HHW after ILEPA provided lists of HHW collection dates.
- TRC developed a trade article but it was not picked up prior to the conclusion of the program modification period.

Demolition Industry

- Created the \$100 for 40 thermostats incentive program¹⁹. In addition to the incentive campaign, demolition contractors were to receive the bins at no charge. For those demolition contractors shipping less than 40 thermostats, TRC would compensate \$2.50/unit. The incentive campaign was marketed in trade association e-newsletters, asks for earned media, created a unique demolition contractor web-page²³ and by engaging the National Demolition Association (NDA). The NDA never returned emails or phone messages. There were 0 demolition contractors that took advantage of the promotion.
- Sent 157 demolition contractors information on the program including the EPA provided PDF titled, "Before you tear it down".
- Reviewed Asbestos Contractor contact list provided by IEPA and determined wasn't enough viability.
- Re-sent to a new list of 166 demolition contractors information on an incentive program; \$100 for 40 thermostats pilot. Copy of the advertisement listed below [Figure 4.2].

²¹ 2016-2017 Program Modifications provided for this requirement.

²² 2016-2017 Program Modifications required this outreach tactic.

²³ <https://www.thermostat-recycle.org/statelaws/illinois>

Figure 4.2

Other Building Types; Schools, Universities, and Property Management Companies of Multi-Family Housing

- CET provided representative services toward these audience. A breakout report is located in the Appendices - CET Activity Report. The outcomes were no significant uptick or collection container request.
- Created a trade article and pitched to BOMA but it was not picked up.

Press Releases

- On March 02, 2017, TRC released the “TRC Names Franklin Energy Services Illinois’ Collection Partner of the Month”.²⁸

²⁷ 2016-2017 Program Modifications required a study to be conducted on Google AdWords campaign analytics.

²⁸ 2016-2017 Program Modifications required (2) Collection Partner of the month posts. One was completed in March and was sent publicly via a press release; Franklin Energy and August for Naperville Fire Department. Both articles were published on TRC’s website, <https://www.thermostat-recycle.org/news/>

Print Collateral

- TRC created 11”X17” posters for all collection sites [Figure 4.5]²⁹. These posters were created in English and Spanish.

Figure 4.5

- TRC created an HHW specific infographic pamphlet [Figure 4.6] which was used as a direct mailer to HHW's¹⁹.

Figure 4.6

²⁹ These posters were created and sent out due to 2016-2017 Program Modifications.

2018 PROGRAM MODIFICATIONS

Thermostat Recycling Corporation's Illinois Planned Activities:

1. Continue the program's operational activities such as outbound phone calls, mailing reminder postcards, and visiting collection sites. Use collection data trends to target these initiatives.
2. Continue advertising which promotes the program's collection network and definition of new potential collection partners.
3. Target three key industries, Utilities, the waste-related sector, and HVAC.
4. Look for opportunities to switch collection points to small pails.
5. Attend and/or exhibit at the following Illinois specific trade shows (Completed).

Date	Show	Location
January		
22nd-24th	AHR Expo	Chicago, IL
February		
7th -9th	MEEA	Chicago, IL
April		
5 th	Mechanical Contractor's Tech Day	Mokena, IL

6. Utility work:
 - a. Target the northern Illinois region for utility initiatives which are targeting thermostat replacements; either through direct install, trade ally, or BYOT (Bring your own thermostat) rebate programs. Much of the focus will be towards activities associated with the Future Energy & Jobs Act.
 - b. Continue to target Illinois Home Performance Contractors with program information. Illinois Home Performance Contractor's Association is intermingled with MEEA.
 - c. Use Cadmus supplied report to continue TRC messaging requests to known utility programs.
 - d. Where possible, look for opportunities, through low-income utility programs. As an example, TRC is aware of the income eligible free smart thermostats being offered through ComEd.

2016-2017 PROGRAM MODIFICATION ANALYSIS

In 2016, TRC made a series of program modifications to further boost thermostat collections in Illinois with goals of driving collection to more than 30,000 mercury-containing thermostats in 2017, increasing participation by distributing more bins, and increasing awareness for proper disposal of mercury thermostats. One goal of the program modifications was to increase outreach for participating channel partners. The outreach took a variety of forms, including increased ‘miss you’ phone calls, postcards to locations that did not return a bin in 2016, and in-person site visits. Additionally, emails were sent as a follow-up to postcards to locations that had yet to return a bin.

Between 2014-2015, 163 site visits and 171 ‘miss you’ calls were made, with some locations receiving both a call and a visit. From 2016-2017 the number of calls were ramped up to 362 and 94 site visits were conducted.

The target for increased outreach in 2016 was to call at least 250 locations and visit 25% of all IL locations. The first part of this goal was successfully reached with 362 calls going out to various locations in IL over the two-year period of 2016 and 2017. Half of the called locations, 184, also received postcards in March, June, and/or September of 2017. A total of 94 site visits were conducted in 2016 and 2017, which accounted for 17% of the total participating locations.

Each year the return rate, defined as the number of locations that returned at least one bin compared to total number of locations, was greater for locations that received a reminder compared to locations that did not receive a reminder. From 2014 through 2015, locations that received a reminder had a return rate range from 39% to 62%, with an average rate of 51%. Locations that did not receive a reminder had an average return rate of 26%. From 2016 to 2017 there was a similar pattern of return rates, with rates ranging between 34% to 59% for locations that received a reminder compared to only 19% for locations that did not receive a reminder.

Another metric for comparing bin returns for locations that received reminders and locations that were not reminded to return bins is the bin count per location. For locations

that received any reminder bin count per location ranged from 0.4 to 1. Locations that received visits and postcards were on the high end of that range, returning on average 1 bin for each participating location. In contrast, only 0.3 bins per location or 1 bin for every 3 locations was returned by the group that received no reminder.

Due to the push on outreach to participating locations, the number of locations that did not receive any reminder between 2016 and 2017 was lower than the previous two years by nearly 200 locations. The return rate for the non-reminded locations in 2016 and 2017 was also 7 percentage points lower than in the previous two years. A major factor in that lower return rate was due to a major drop in return rates in 2017. Only 25 bins were returned in 2017 by locations that did not receive a reminder, which accounted for a return rate for that year of 8%. Additionally, 6 of those returned bins and 403 of the 536 thermostats that were returned came from one location in Lombard, IL. This location received no site visits, calls, or postcards between 2014-2017 and returned no bins or thermostats from 2014-2016. No other location returned as many bins.

There were 70 locations (approximately 10% of participating locations) that did not return a bin or receive a reminder in 2016 that did receive a reminder in 2017 and returned at least 1 bin. Five of those locations had not returned a bin from 2014-2016 and returned 1 bin in 2017. The number of non-active participants that received a reminder and returned at least one bin in 2017 was 37% higher than that same group in 2016.

*In 2017, all visited locations also received a postcard.

Postcards & Emails

Postcards were an additional tool used to remind participating locations to return bins, and 388 out of nearly 539 locations received at least one postcard. On average, 2 postcards were sent per location. Following the postcards, reminder emails were sent. Postcards were sent in March (290), June (289), and September (261). The follow up reminder emails were sent in those same months with 69 successful emails going out in March, 221 successful emails in June, and 381 successful emails in September. In the first round 36% of recipients opened the email and 13% clicked on a link provided in the email that directed recipients to the TRC website. In the third round only 22% of recipients opened the email and 2.4% clicked on the email. Despite the lower open rate in the third round of emails, more than three times as many people open the email simply because more emails were sent. Despite the much higher open rate however, only 9 recipients clicked on the email in both the first and third round. While emails are an efficient means of contacting participating locations, more emails do not necessarily translate to more email link clicks.

Opened emails may indicate more interest in thermostat recycling than non-opened emails. To assess whether this was the case, the return rate of those emails that registered as having been opened were compared to the return rate of locations that registered as un-

opened emails. Locations that did open the email in June and September had a return rate a few percentage points greater than locations that did not open the email. This may mean that emails provide another quick reminder to locations and resulted in a few additional bins being returned.

Interestingly, in March the group that did not open the email had a return rate of 73%, which was significantly greater than the locations that opened the emails at 40%. This could indicate that at the beginning of the year, the postcard provides enough of a reminder to motivated groups to turn in their bins since the emailed locations had received a postcard a few weeks prior, and a follow up email is not necessary, although this cannot be determined from the data provided. What is clear however from the miss you call, visit, postcard, and reminder email data, is that locations that received a reminder have a higher return rate than locations that did not receive a reminder.

FIGURE 5.2 -A: EMAIL OPENS AND CLICKS

Rounds of Emails	Total Successful Recipients	Recipients Who Opened	Percent Recipients Who Opened	Recipients Who Clicked	Percent Recipients Who Clicked
March	69	25	36%	9	13%
June	221	65	29%	10	4.5%
September	381	86	22%	9	2.4%

Sep	115	39%	154	0.5	616	2

*# of active participating locations refers to locations that returned at least one bin in 2017

AdWords Campaign

TRC also conducted a Google AdWords campaign. Six ad groups were run, each being triggered to the 2nd or 3rd place (average placement 2.4) of a Google search page based on different key search terms displayed in Figure 5.3. For the campaign impressions, clicks, and conversions were measured. An impression occurred when an ad is displayed as a top selection on a Google search page. A click is counted when the ad is clicked on by the searcher. A conversion was registered if the searcher then clicked a link within the ad page titled “Find a Location”.

FIGURE 5.3: AD GROUPS

		+thermostat +manufacturers
		nest thermostat 2nd generation
		+nest +programmable +thermostat

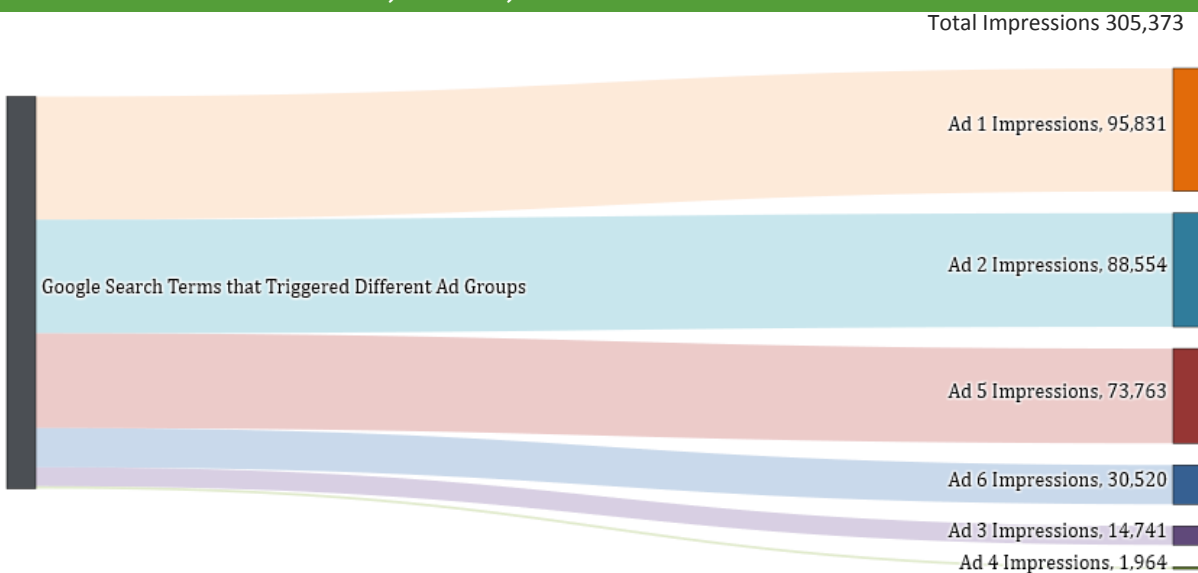

Figure 5.4 displays the results of the Google AdWords campaign in a table, and figure 5.5 breaks down results into two figures. The top figure of 5.5 shows the number of times each ad group appeared, counted as an impression, based on the 305,373 total Google searches that occurred during the campaign with specified keywords. Ad Group 1 was shown 95,831 times, capturing 31% of impressions, and was triggered from search terms such as “Honeywell thermostats” and “Honeywell thermostat user manual”. Ad Group 2 had 29% of all impressions, so search terms that linked to Ad Group 2 such as “thermostat” or “best thermostats” were also frequent searches performed. Ad Group 4 received the fewest impressions appearing only 1,964 times or 1% of all searches. Searches that triggered Ad Group 4 included “how to dispose mercury” and “disposal of mercury”.

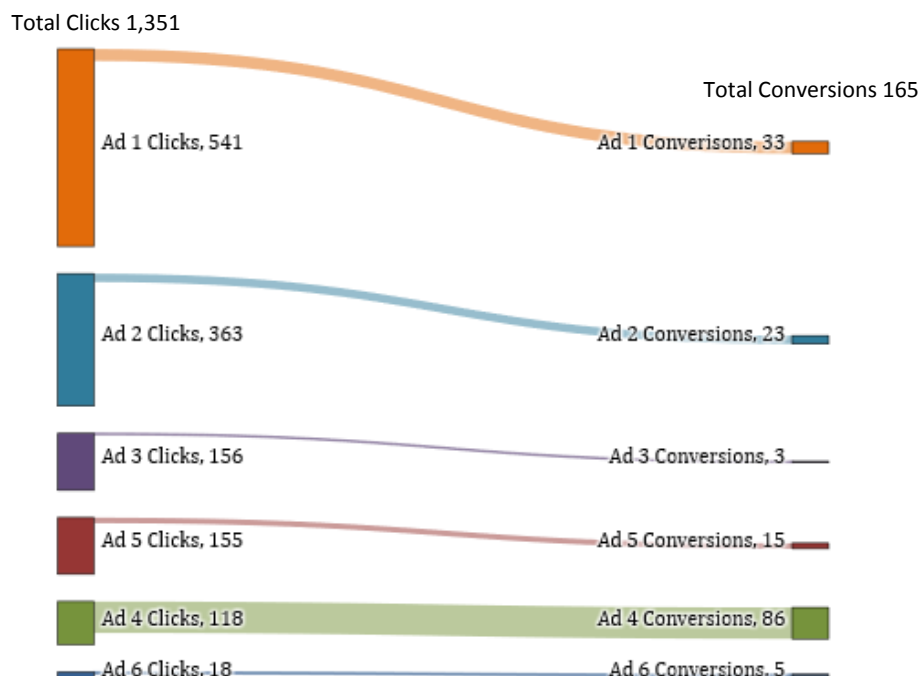

While Ad Groups 1 and 2 generated 60% of impressions, only 0.6% (541 out of 95,831) and 0.4% (363 out of 88,554), respectively, clicked on the ad. In contrast, Ad Group 4 was only viewed by 1% of searches, however 6% of those shown the ad clicked on it (118 out of 1,964). The bottom image of Figure 5.5 displays number of clicks and conversions. Ad Group 4 had the highest rate of conversions per click at 73%. For the 1,964 user that searched terms such as “how to dispose mercury”, 118 clicked on the ad that brought them to the TRC webpage and 86 of those that clicked on the ad converted, clicking on the link “Find a Location”. In contrast of the 541 user that clicked on Ad Group 1 only 33 converted (6%).

Clearly, search terms that triggered Ad Group 1 or 2 were frequent searches, however the ad displayed by TRC regarding mercury thermostat recycling may not have been relevant for the majority of those that saw the ad because less than 1% clicked. On the other hand, far fewer searches that triggered Ad Group 4 were performed during the ad campaign, but the displayed ad was relevant to 6% of those that saw the ad. Additionally, nearly three-quarters of those that clicked were interested in finding a mercury thermostat recycling location nearby, leading to a likelihood that Ad Group 4 increased mercury thermostat collections by TRC.

FIGURE 5.4: AD GROUPS IMPRESSIONS, CLICKS, AND CONVERSIONS

	Ad Group 1	Ad Group 2	Ad Group 3	Ad Group 4	Ad Group 5	Ad Group 6
Impressions	95,831	88,554	14,741	1,964	73,763	30,520
% of Impressions	31%	29%	5%	1%	24%	10%
Clicks	541	363	156	118	155	18
% of Impressions that Clicked	0.6%	0.4%	1.1%	6.0%	0.2%	0.1%
Conversions	33	23	3	86	15	5
% of Clicks that Converted	6%	6%	2%	73%	10%	28%

FIGURE 5.5: IMPRESSIONS, CLICKS, AND CONVERSIONS

Note: The bottom figure only displays positive clicks and conversions and does not display the number of impressions that did not lead to clicks or conversions. The vertical bars represent the number of clicks on the left and the number of conversions on the right

The final component of this Google AdWords Campaign analysis is the cost breakdown for each ad. Cost can be segmented into total cost, cost per impression, cost per click and cost per conversion, all displayed in Figure 5.5. Ad Group 1 and Ad Group 2 had the highest individual costs, with Ad Group 1 costing more than double the average. Even though Ad Group 1 was by far the most expensive ad, it also received the greatest impressions and clicks, indicating this add was seen and interacted with by the most people. Only 33 of the viewers who saw Ad Group 1, however, converted, meaning they followed the “Find a Location” link, so that Ad Group 1 had the second highest cost per conversion. Ad Group 4, which received the most conversions of all ads had the lowest cost per conversion. Ad Group 4 was also inexpensive to run compared to Ad Group 1, with an overall cost of \$133, eight times less than Ad Group 1, however Ad Group 4 had a much lower impression rate than Ad Group 1 so the cost per impression for ad 4 was greater than ad 1. The cost per intended outcome, including impressions, clicks and conversions, should each be

considered in purchasing ad keywords. The cost per impression for ad Group 1 (\$0.009), the most expensive ad in total, was one tenth of the cost per impression of Ad Group 4 (\$0.068) which had the lowest cost per click and cost per conversion. As such, the purpose of the ad, whether it is to generate the most views, clicks, or conversions should be considered to establish the most cost-effective approach to advertising.

FIGURE 5.5: AD GROUP COSTS

	Ad Group 1	Ad Group 2	Ad Group 3	Ad Group 4	Ad Group 5	Ad Group 6	Avg.
Impressions	95,831	88,554	14,741	1,964	73,763	30,520	50,896
Clicks	541	363	156	118	155	18	225
Conversions	33	23	3	86	15	5	28
Total Cost	\$856	\$452	\$248	\$133	\$240	\$29	\$326
Cost Per Impression	\$0.009	\$0.005	\$0.017	\$0.0068	\$0.003	\$0.001	\$0.02
Cost Per Click	\$1.58	\$1.25	\$1.59	\$1.13	\$1.55	\$1.64	\$1.45
Cost Per Conversion	\$25.93	\$19.67	\$82.52	\$1.55	\$16.02	\$5.89	\$25.26

HVAC Contractor Performance

TRC offers bins to large HVAC contractors to participate directly in the program. Fourteen bins were supplied to HVAC contractors from 2016-2017, compared to 88 bins supplied from 2014-2015. Figure 5.6 shows the number of bins that were returned by HVAC contractors that received a new bin compared to those that did not receive a new bin since 2014. Although HVAC contractors that were supplied a new bin in 2016-2017 returned fewer bins overall than those that received a new bin in 2014-2015, again, fewer HVAC contractors received a new bin in the more recent time period. Active participation (i.e. locations that returned a bin), however, was similar between HVAC contractors that were assigned a bin in both time periods; 30% of HVAC contractors that were assigned a bin in 2016-2017 returned a bin in the same time period, comparable to the proportion of those locations that returned a bin in the baseline period from 2014-2015 (33%). On average, HVAC contractors that were given a bin from 2016-2017 returned more bins per location than those that were given a bin in the baseline period. This increase in average bins returned per location was in large part caused by a CLEAResult location, which received six of the 14 bins assigned from 2016-2017 and returned all six of them. Thus, although fewer bins were supplied to HVAC contractors than during the baseline period, the bins were more effectively assigned to locations that will actively participate and will more likely be returned in the future.

FIGURE 5.6 HVAC CONTRACTOR BIN RETURNS 2014-2017, BY BIN ASSIGNMENTS

Period	Number of Bins Returned		Bins Returned Per Location		% of Locations Returning a Bin	
	New Bin Supplied	No New Bins Supplied	New Bin Supplied	No New Bins Supplied	New Bin Supplied	No New Bins Supplied
2014-2015	38	135	0.58	0.41	33%	29%
2016-2017	9	130	0.90	0.34	30%	25%

In 2016-17, 23 site visits were conducted at contractor locations to encourage bin returns, a significant increase over the six site visits conducted from 2014-2015. Additionally, ‘miss you’ calls to HVAC contractors more than doubled from 110 in the baseline period to 236 in 2016-2017. Figure 5.7 breaks down the impact of visits, ‘miss you’ calls and postcards on bin and thermostat returns. HVAC contractors returned 139 bins from 2016-2017, down from the 173 bins returned from 2014-2015. In 2016-2017, HVAC contractors that only received a postcard returned the most bins per location, on average. Thermostat returns decreased by 10% from the baseline period to 6,850 (down from 7,915). As with bin returns, locations receiving only a postcard also returned the most thermostats on average.

FIGURE 5.7 HVAC CONTRACTOR RETURNS 2014-2017, BY REMINDER ACTIVITY

*In 2017, all visited locations also received a postcard.

HHW Performance

TRC has worked with household hazardous waste (HHW) facilities to integrate thermostat collection into local drop-off events. In 2017, TRC partnered with eight HHW facilities in Illinois. Figure 5.8 lists the HHW facilities that have been assigned a bin since 2014 and the number of thermostats those locations have returned over the same time period. One new bin was supplied to a HHW facility from 2016-2017, down from the two bins supplied from 2014-2015. The bin supplied in 2017 was assigned to Naperville, IL's HHW facility. This was not a new partner location, but rather the top performing HHW facility from 2014-2017; the Naperville location is the only HHW facility that returned a bin all four years and returned the most thermostats each year (ranging from 71-203 thermostats). The locations that were assigned a bin from 2014-2015, in contrast, have returned zero or one bin since their bin assignment, with few thermostats. Therefore, although fewer bins were supplied in 2016-2017, the effort will still likely result in higher thermostat returns than the effort conducted in the baseline period 2014-2015.

FIGURE 5.8: BINS ASSIGNED TO HHW FACILITIES 2014-2017

Location	Bin Assignment Year	Thermostats Returned 2014-2017
City of Champaign	2014	12
Will County Land Use Department	2015	0
Naperville HHW	2017	496

Figure 5.9 displays the number of thermostats returned by HHW facilities from 2016-2017 compared to 2014-2015. HHW partner locations returned 294 thermostats from 2016-2017, a 10% decrease from the 326 thermostats returned from 2014-2015. The number of thermostats returned in a year, however, is largely driven by Naperville's HHW facility as it is one of only four permanent HHW sites in the state. Omitting this outlier, HHW facilities returned 108 thermostats from 2016-2017, a 575% increase over the baseline period. Most of these thermostats were returned by Macon County EMD in 2016.

FIGURE 5.9 THERMOSTATS RETURNED BY HHW FACILITIES 2014-2017

Year	Number of Thermostats Recovered	% Change from 2014-2015	Number of Thermostats Recovered, excluding Naperville HHW	% Change from 2014-2015
2014-2015	326	-	16	-
2016-2017	294	-10%	108	575%

Recycle every mercury thermostat, every time.

APPENDICES

HOW MERCURY THERMOSTAT WASTE IS HANDLED

WASTE MERCURY-ADDED THERMOSTAT MANAGEMENT THROUGH VEOLIA ES TECHNICAL SOLUTIONS, LLC.

Beginning December 19, 2016, bins with waste mercury-switch thermostats were received at a new fulfillment/inventory center in Port Washington, Wisconsin (WIR000130591). The facility is owned and operated by Veolia ES Technical Solutions, L.L.C. (Veolia) under contract with TRC.

All recycling containers, including pails and bins are received at the loading dock and sent to the TRC inventory area. The bin and plastic liner are opened and the contents are identified, sorted, and tallied. The following data is recorded for each bin returned and processed: bin number, business name (location name), city, state, zip code, date returned, number of thermostats and mercury switches by manufacturer and any non-conforming material.

The containers are returned to the location that sent it in with a new prepaid address label within 72 hours of receipt. The thermostats are stored and staged in a plastic lined carton in a storage area for final processing. The containers are dated and processed in order received, first in-first out.

The thermostats and any loose bulb collected from the bins are consolidated into a special 55-gallon drum which is labeled and dated according to regulations. The drum is sealed with a band and is only opened when contents are being added to it. Special negative pressure venting assures any fumes are captured and vented when the drum is opened.

The 55-gallon drum is then shipped to Veolia's mercury recovery facility (WID988566543) for final processing of the mercury ampoules (switches) Veolia Environmental Services meets or exceeds all local, state, federal and EPA regulations for the management of the product.

The containers are returned from the storage area to the mercury recovery processing area to have the mercury bulbs removed from the plastic housing. Universal Waste Regulations require the recycling and disposal of waste within 12 months of acceptance at the processing facility.

Small quantities of thermostats are removed from the container, which is then closed again, a spillage. The bulbs are removed from the thermostats and placed into processing vessel at the work station. Once the processing vessel is full, the vessel is loaded into the mercury recovery retort oven.

If a bulb breaks and the mercury spills, the work area is designed to contain the spillage and the operators are trained in the clean-up and disposal of mercury. The TRC inventory and processing areas are equipped with special mercury vacuum cleaners and the work area is vacuumed at the end of the work day to assure that any spillage is cleaned up and not left to evaporate.

Veolia meets or exceeds all local, state, federal and EPA regulations for the management of the product. The mercury recovery facility and process are permitted by the Wisconsin Department of Natural Resources. Veolia's approvals for mercury recovery/recycling include:

- EPA - identification WID988566543
- Hazardous Waste Storage License #6008
- Hazardous Waste Treatment License (Mercury Recovery Operations) #4585
- Air Operation Permit #246076050-S01
- Storm Water General Permit #WI-S067857-4

In addition to the regulatory permits, both Veolia Port Washington facilities have developed and maintains management systems in accordance with ISO 14001-2004, OHSAS 18001-2007, and Responsible Recycling (R2:2013) Practice. All persons who handle mercury thermostats as part of the TRC operation receive training in the handling of Hazardous Waste and Universal Waste.

The mercury containing ampules are retorted at Veolia's Port Washington Mineral Springs facility. The mercury is removed during the retort process. The post retort debris consists of broken glass ampules. The debris is tested for residual mercury to document the removal of the mercury to levels below the US EPA Land Disposal Restriction (LDR) levels. The debris is then disposal of as a non-hazardous solid waste at Advanced Disposal Glacier Ridge Landfill, LLC in Horicon, Wisconsin.

A site evaluation of the Veolia Processing Center in Port Washington, WI was conducted by TRC staffer, Danielle Myers, in early October 2017. From this audit, a new design flow for processing bins was discovered, as well as more efficient ways to return bins back to participating facilities and contractors. Updates to packaging instructions were also a result, and will include new marketing collateral, incentives, and small pails.

☒ Yes ☐ No

Part III Statement of Program Service AccomplishmentsCheck if Schedule O contains a response or note to any line in this Part III ☐

1 Briefly describe the organization's mission:

THE THERMOSTAT RECYCLING CORPORATION (TRC) IS A NON-PROFIT ORGANIZATION THAT FACILITATES AND MANAGES THE COLLECTION AND PROPER DISPOSAL OF MERCURY-CONTAINING THERMOSTATS.

2 Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ? ☐ Yes ☒ No

If "Yes," describe these new services on Schedule O.

3 Did the organization cease conducting, or make significant changes in how it conducts, any program services? ☐ Yes ☒ No

If "Yes," describe these changes on Schedule O.

4 Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. Section 501(c)(3) and 501(c)(4) organizations are required to report the amount of grants and allocations to others, the total expenses, and revenue, if any, for each program service reported.

4a (Code:) (Expenses \$ 2,095,746. including grants of \$) (Revenue \$ 2,920,228.)

TRC FACILITATES THE PROPER MANAGEMENT OF WASTE MERCURY THERMOSTATS BY PROVIDING RECYCLING CONTAINERS FOR THE COLLECTION AND TRANSPORT OF WASTE MERCURY THERMOSTATS TO ELIGIBLE COLLECTION SITES IN ALL U.S. STATES EXCEPT ALASKA AND HAWAII. TRC ALSO CONDUCTS AN EDUCATIONAL CAMPAIGN PROMOTING THE PROPER MANAGEMENT OF WASTE MERCURY THERMOSTATS. SINCE TRC'S FOUNDING, TRC HAS COLLECTED OVER 2,100,000 MERCURY-CONTAINING THERMOSTATS WHICH HAS KEPT 10 TONS OF MERCURY OUT OF THE WASTE SYSTEM.

4b (Code:) (Expenses \$ including grants of \$) (Revenue \$)

4c (Code:) (Expenses \$ including grants of \$) (Revenue \$)

4d Other program services (Describe in Schedule O.)

(Expenses \$ including grants of \$) (Revenue \$)

4e Total program service expenses **2,095,746.**

Part IV Checklist of Required Schedules

	Yes	No
1 Is the organization described in section 501(c)(3) or 4947(a)(1) (other than a private foundation)? If "Yes," complete Schedule A		X
2 Is the organization required to complete Schedule B, Schedule of Contributors?		X
3 Did the organization engage in direct or indirect political campaign activities on behalf of or in opposition to candidates for public office? If "Yes," complete Schedule C, Part I		X
4 Section 501(c)(3) organizations. Did the organization engage in lobbying activities, or have a section 501(h) election in effect during the tax year? If "Yes," complete Schedule C, Part II		
5 Is the organization a section 501(c)(4), 501(c)(5), or 501(c)(6) organization that receives membership dues, assessments, or similar amounts as defined in Revenue Procedure 98-19? If "Yes," complete Schedule C, Part III	X	
6 Did the organization maintain any donor advised funds or any similar funds or accounts for which donors have the right to provide advice on the distribution or investment of amounts in such funds or accounts? If "Yes," complete Schedule D, Part I		X
7 Did the organization receive or hold a conservation easement, including easements to preserve open space, the environment, historic land areas, or historic structures? If "Yes," complete Schedule D, Part II		X
8 Did the organization maintain collections of works of art, historical treasures, or other similar assets? If "Yes," complete Schedule D, Part III		X
9 Did the organization report an amount in Part X, line 21, for escrow or custodial account liability, serve as a custodian for amounts not listed in Part X; or provide credit counseling, debt management, credit repair, or debt negotiation services? If "Yes," complete Schedule D, Part IV		X
10 Did the organization, directly or through a related organization, hold assets in temporarily restricted endowments, permanent endowments, or quasi-endowments? If "Yes," complete Schedule D, Part V		X
11 If the organization's answer to any of the following questions is "Yes," then complete Schedule D, Parts VI, VII, VIII, IX, or X as applicable.		
a Did the organization report an amount for land, buildings, and equipment in Part X, line 10? If "Yes," complete Schedule D, Part VI	X	
b Did the organization report an amount for investments - other securities in Part X, line 12 that is 5% or more of its total assets reported in Part X, line 16? If "Yes," complete Schedule D, Part VII		X
c Did the organization report an amount for investments - program related in Part X, line 13 that is 5% or more of its total assets reported in Part X, line 16? If "Yes," complete Schedule D, Part VIII		X
d Did the organization report an amount for other assets in Part X, line 15 that is 5% or more of its total assets reported in Part X, line 16? If "Yes," complete Schedule D, Part IX		X
e Did the organization report an amount for other liabilities in Part X, line 25? If "Yes," complete Schedule D, Part X		X
f Did the organization's separate or consolidated financial statements for the tax year include a footnote that addresses the organization's liability for uncertain tax positions under FIN 48 (ASC 740)? If "Yes," complete Schedule D, Part X	X	
12a Did the organization obtain separate, independent audited financial statements for the tax year? If "Yes," complete Schedule D, Parts XI and XII	X	
b Was the organization included in consolidated, independent audited financial statements for the tax year? If "Yes," and if the organization answered "No" to line 12a, then completing Schedule D, Parts XI and XII is optional		X
13 Is the organization a school described in section 170(b)(1)(A)(ii)? If "Yes," complete Schedule E		X
14a Did the organization maintain an office, employees, or agents outside of the United States?		X
b Did the organization have aggregate revenues or expenses of more than \$10,000 from grantmaking, fundraising, business, investment, and program service activities outside the United States, or aggregate foreign investments valued at \$100,000 or more? If "Yes," complete Schedule F, Parts I and IV		X
15 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of grants or other assistance to or for any foreign organization? If "Yes," complete Schedule F, Parts II and IV		X
16 Did the organization report on Part IX, column (A), line 3, more than \$5,000 of aggregate grants or other assistance to or for foreign individuals? If "Yes," complete Schedule F, Parts III and IV		X
17 Did the organization report a total of more than \$15,000 of expenses for professional fundraising services on Part IX, column (A), lines 6 and 11e? If "Yes," complete Schedule G, Part I		X
18 Did the organization report more than \$15,000 total of fundraising event gross income and contributions on Part VIII, lines 1c and 8a? If "Yes," complete Schedule G, Part II		X
19 Did the organization report more than \$15,000 of gross income from gaming activities on Part VIII, line 9a? If "Yes," complete Schedule G, Part III		X

Form 990 (2016)

Part IV Checklist of Required Schedules (continued)

	Yes	No
20a Did the organization operate one or more hospital facilities? <i>If "Yes," complete Schedule H</i>		X
b If "Yes" to line 20a, did the organization attach a copy of its audited financial statements to this return?		
21 Did the organization report more than \$5,000 of grants or other assistance to any domestic organization or domestic government on Part IX, column (A), line 1? <i>If "Yes," complete Schedule I, Parts I and II</i>		X
22 Did the organization report more than \$5,000 of grants or other assistance to or for domestic individuals on Part IX, column (A), line 2? <i>If "Yes," complete Schedule I, Parts I and III</i>		X
23 Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? <i>If "Yes," complete Schedule J</i>		X
24a Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than \$100,000 as of the last day of the year, that was issued after December 31, 2002? <i>If "Yes," answer lines 24b through 24d and complete Schedule K. If "No," go to line 25a</i>		X
b Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?		
c Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?		
d Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?		
25a Section 501(c)(3), 501(c)(4), and 501(c)(29) organizations. Did the organization engage in an excess benefit transaction with a disqualified person during the year? <i>If "Yes," complete Schedule L, Part I</i>		
b Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? <i>If "Yes," complete Schedule L, Part I</i>		
26 Did the organization report any amount on Part X, line 5, 6, or 22 for receivables from or payables to any current or former officers, directors, trustees, key employees, highest compensated employees, or disqualified persons? <i>If "Yes," complete Schedule L, Part II</i>		X
27 Did the organization provide a grant or other assistance to an officer, director, trustee, key employee, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity or family member of any of these persons? <i>If "Yes," complete Schedule L, Part III</i>		X
28 Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions for applicable filing thresholds, conditions, and exceptions):		
a A current or former officer, director, trustee, or key employee? <i>If "Yes," complete Schedule L, Part IV</i>		X
b A family member of a current or former officer, director, trustee, or key employee? <i>If "Yes," complete Schedule L, Part IV</i>		X
c An entity of which a current or former officer, director, trustee, or key employee (or a family member thereof) was an officer, director, trustee, or direct or indirect owner? <i>If "Yes," complete Schedule L, Part IV</i>		X
29 Did the organization receive more than \$25,000 in non-cash contributions? <i>If "Yes," complete Schedule M</i>		X
30 Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? <i>If "Yes," complete Schedule M</i>		X
31 Did the organization liquidate, terminate, or dissolve and cease operations? <i>If "Yes," complete Schedule N, Part I</i>		X
32 Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? <i>If "Yes," complete Schedule N, Part II</i>		X
33 Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301.7701-2 and 301.7701-3? <i>If "Yes," complete Schedule R, Part I</i>		X
34 Was the organization related to any tax-exempt or taxable entity? <i>If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1</i>		X
35a Did the organization have a controlled entity within the meaning of section 512(b)(13)?		X
b If "Yes" to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? <i>If "Yes," complete Schedule R, Part V, line 2</i>		
36 Section 501(c)(3) organizations. Did the organization make any transfers to an exempt non-charitable related organization? <i>If "Yes," complete Schedule R, Part V, line 2</i>		
37 Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? <i>If "Yes," complete Schedule R, Part VI</i>		X
38 Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19?	X	

Note. All Form 990 filers are required to complete Schedule O

Part V Statements Regarding Other IRS Filings and Tax ComplianceCheck if Schedule O contains a response or note to any line in this Part V ☐

			Yes	No
1a	Enter the number reported in Box 3 of Form 1096. Enter -0- if not applicable	5		
1b	Enter the number of Forms W-2G included in line 1a. Enter -0- if not applicable	0		
c	Did the organization comply with backup withholding rules for reportable payments to vendors and reportable gaming (gambling) winnings to prize winners?	1c	X	
2a	Enter the number of employees reported on Form W-3, Transmittal of Wage and Tax Statements, filed for the calendar year ending with or within the year covered by this return	6		
b	If at least one is reported on line 2a, did the organization file all required federal employment tax returns? Note. If the sum of lines 1a and 2a is greater than 250, you may be required to e-file (see instructions)	2b	X	
3a	Did the organization have unrelated business gross income of \$1,000 or more during the year?	3a		X
b	If "Yes," has it filed a Form 990-T for this year? If "No," to line 3b, provide an explanation in Schedule O	3b		
4a	At any time during the calendar year, did the organization have an interest in, or a signature or other authority over, a financial account in a foreign country (such as a bank account, securities account, or other financial account)?	4a		X
b	If "Yes," enter the name of the foreign country: See instructions for filing requirements for FinCEN Form 114, Report of Foreign Bank and Financial Accounts (FBAR).			
5a	Was the organization a party to a prohibited tax shelter transaction at any time during the tax year?	5a		X
b	Did any taxable party notify the organization that it was or is a party to a prohibited tax shelter transaction?	5b		X
c	If "Yes," to line 5a or 5b, did the organization file Form 8886-T?	5c		
6a	Does the organization have annual gross receipts that are normally greater than \$100,000, and did the organization solicit any contributions that were not tax deductible as charitable contributions?	6a		X
b	If "Yes," did the organization include with every solicitation an express statement that such contributions or gifts were not tax deductible?	6b		
7	Organizations that may receive deductible contributions under section 170(c).			
a	Did the organization receive a payment in excess of \$75 made partly as a contribution and partly for goods and services provided to the payor?	7a		
b	If "Yes," did the organization notify the donor of the value of the goods or services provided?	7b		
c	Did the organization sell, exchange, or otherwise dispose of tangible personal property for which it was required to file Form 8282?	7c		
d	If "Yes," indicate the number of Forms 8282 filed during the year	7d		
e	Did the organization receive any funds, directly or indirectly, to pay premiums on a personal benefit contract?	7e		X
f	Did the organization, during the year, pay premiums, directly or indirectly, on a personal benefit contract?	7f		X
g	If the organization received a contribution of qualified intellectual property, did the organization file Form 8899 as required?	7g		
h	If the organization received a contribution of cars, boats, airplanes, or other vehicles, did the organization file a Form 1098-C?	7h		
8	Sponsoring organizations maintaining donor advised funds. Did a donor advised fund maintained by the sponsoring organization have excess business holdings at any time during the year?	8		
9	Sponsoring organizations maintaining donor advised funds.			
a	Did the sponsoring organization make any taxable distributions under section 4966?	9a		
b	Did the sponsoring organization make a distribution to a donor, donor advisor, or related person?	9b		
10	Section 501(c)(7) organizations. Enter:			
a	Initiation fees and capital contributions included on Part VIII, line 12	10a		
b	Gross receipts, included on Form 990, Part VIII, line 12, for public use of club facilities	10b		
11	Section 501(c)(12) organizations. Enter:			
a	Gross income from members or shareholders	11a		
b	Gross income from other sources (Do not net amounts due or paid to other sources against amounts due or received from them.)	11b		
12a	Section 4947(a)(1) non-exempt charitable trusts. Is the organization filing Form 990 in lieu of Form 1041?	12a		
b	If "Yes," enter the amount of tax-exempt interest received or accrued during the year	12b		
13	Section 501(c)(29) qualified nonprofit health insurance issuers.			
a	Is the organization licensed to issue qualified health plans in more than one state? Note. See the instructions for additional information the organization must report on Schedule O.	13a		
b	Enter the amount of reserves the organization is required to maintain by the states in which the organization is licensed to issue qualified health plans	13b		
c	Enter the amount of reserves on hand	13c		
14a	Did the organization receive any payments for indoor tanning services during the tax year?	14a		X
b	If "Yes," has it filed a Form 720 to report these payments? If "No," provide an explanation in Schedule O	14b		

Form 990 (2016)

Part VI Governance, Management, and Disclosure For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes in Schedule O. See instructions.

Check if Schedule O contains a response or note to any line in this Part VI ☒

Section A. Governing Body and Management

	Yes	No
1a Enter the number of voting members of the governing body at the end of the tax year 1a 3		
If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain in Schedule O. 1b 3		
2 Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee? 2		X
3 Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors, or trustees, or key employees to a management company or other person? 3		X
4 Did the organization make any significant changes to its governing documents since the prior Form 990 was filed? 4		X
5 Did the organization become aware during the year of a significant diversion of the organization's assets? 5		X
6 Did the organization have members or stockholders? 6	X	
7a Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body? 7a	X	
b Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body? 7b		X
8 Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:		
a The governing body? 8a	X	
b Each committee with authority to act on behalf of the governing body? 8b	X	
9 Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? If "Yes," provide the names and addresses in Schedule O 9		X

Section B. Policies (This Section B requests information about policies not required by the Internal Revenue Code.)

	Yes	No
10a Did the organization have local chapters, branches, or affiliates? 10a		X
b If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes? 10b		
11a Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form? 11a	X	
b Describe in Schedule O the process, if any, used by the organization to review this Form 990. 11b		
12a Did the organization have a written conflict of interest policy? If "No," go to line 13 12a	X	
b Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts? 12b		X
c Did the organization regularly and consistently monitor and enforce compliance with the policy? If "Yes," describe in Schedule O how this was done 12c		X
13 Did the organization have a written whistleblower policy? 13	X	
14 Did the organization have a written document retention and destruction policy? 14	X	
15 Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?		
a The organization's CEO, Executive Director, or top management official 15a	X	
b Other officers or key employees of the organization 15b	X	
If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions).		
16a Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year? 16a		X
b If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements? 16b		

Section C. Disclosure

17 List the states with which a copy of this Form 990 is required to be filed **CA, MT, IL**

18 Section 6104 requires an organization to make its Forms 1023 (or 1024 if applicable), 990, and 990-T (Section 501(c)(3)s only) available for public inspection. Indicate how you made these available. Check all that apply.
☐ Own website ☐ Another's website ☒ Upon request ☐ Other (explain in Schedule O)

19 Describe in Schedule O whether (and if so, how) the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year.

20 State the name, address, and telephone number of the person who possesses the organization's books and records: **RYAN KISCADEN - 888-266-0550**
500 OFFICE CENTER DRIVE, STE 400, FORT WASHINGTON, PA 19034

Part VII

1b Sub-total	113,808.	0.	516.
c Total from continuation sheets to Part VII, Section A	0.	0.	0.
d Total (add lines 1b and 1c)	113,808.	0.	516.

3

3	Did the organization list any former officer, director, or trustee, key employee, or highest compensated employee on line 1a? <i>If "Yes," complete Schedule J for such individual</i>	3	X
4	For any individual listed on line 1a, is the sum of reportable compensation and other compensation from the organization and related organizations greater than \$150,000? <i>If "Yes," complete Schedule J for such individual</i>	4	X
5	Did any person listed on line 1a receive or accrue compensation from any unrelated organization or individual for services rendered to the organization? <i>If "Yes," complete Schedule J for such person</i>	5	X

Section B. Independent Contractors

1 Complete this table for your five highest compensated independent contractors that received more than \$100,000 of compensation from the organization. Report compensation for the calendar year ending with or within the organization's tax year.

(A) Name and business address	(B) Description of services	(C) Compensation
S. GRONER ASSOCIATES, INC., 100 W. BROADWAY, SUITE 290, LONG BEACH, CA 90802	MARKETING CONSULTING	895,000.

Form 990 (2016)

SCHEDULE C
(Form 990 or 990-EZ)

Department of the Treasury
Internal Revenue Service

Political Campaign and Lobbying Activities

For Organizations Exempt From Income Tax Under section 501(c) and section 527
▶ **Complete if the organization is described below.** ▶ **Attach to Form 990 or Form 990-EZ.**
▶ **Information about Schedule C (Form 990 or 990-EZ) and its instructions is at www.irs.gov/form990.**

OMB No. 1545-0047

2016

**Open to Public
Inspection**

If the organization answered "Yes," on Form 990, Part IV, line 3, or Form 990-EZ, Part V, line 46 (Political Campaign Activities), then

- Section 501(c)(3) organizations: Complete Parts I-A and B. Do not complete Part I-C.
- Section 501(c) (other than section 501(c)(3)) organizations: Complete Parts I-A and C below. Do not complete Part I-B.
- Section 527 organizations: Complete Part I-A only.

If the organization answered "Yes," on Form 990, Part IV, line 4, or Form 990-EZ, Part VI, line 47 (Lobbying Activities), then

- Section 501(c)(3) organizations that have filed Form 5768 (election under section 501(h)): Complete Part II-A. Do not complete Part II-B.
- Section 501(c)(3) organizations that have NOT filed Form 5768 (election under section 501(h)): Complete Part II-B. Do not complete Part II-A.

If the organization answered "Yes," on Form 990, Part IV, line 5 (Proxy Tax) (see separate instructions) or Form 990-EZ, Part V, line 35c (Proxy Tax) (see separate instructions), then

- Section 501(c)(4), (5), or (6) organizations: Complete Part III.

Name of organization

THERMOSTAT RECYCLING CORPORATION

Employer identification number

54-1830284

Part I-A Complete if the organization is exempt under section 501(c) or is a section 527 organization.

- 1 Provide a description of the organization's direct and indirect political campaign activities in Part IV.
- 2 Political campaign activity expenditures ▶ \$
- 3 Volunteer hours for political campaign activities

Part I-B Complete if the organization is exempt under section 501(c)(3).

- 1 Enter the amount of any excise tax incurred by the organization under section 4955 ▶ \$
- 2 Enter the amount of any excise tax incurred by organization managers under section 4955 ▶ \$
- 3 If the organization incurred a section 4955 tax, did it file Form 4720 for this year? ☐ Yes ☐ No
- 4a Was a correction made? ☐ Yes ☐ No
- b If "Yes," describe in Part IV.

Part I-C Complete if the organization is exempt under section 501(c), except section 501(c)(3).

- 1 Enter the amount directly expended by the filing organization for section 527 exempt function activities ▶ \$
- 2 Enter the amount of the filing organization's funds contributed to other organizations for section 527 exempt function activities ▶ \$
- 3 Total exempt function expenditures. Add lines 1 and 2. Enter here and on Form 1120-POL, line 17b ▶ \$
- 4 Did the filing organization file **Form 1120-POL** for this year? ☐ Yes ☐ No
- 5 Enter the names, addresses and employer identification number (EIN) of all section 527 political organizations to which the filing organization made payments. For each organization listed, enter the amount paid from the filing organization's funds. Also enter the amount of political contributions received that were promptly and directly delivered to a separate political organization, such as a separate segregated fund or a political action committee (PAC). If additional space is needed, provide information in Part IV.

(a) Name	(b) Address	(c) EIN	(d) Amount paid from filing organization's funds. If none, enter -0-	(e) Amount of political contributions received and promptly and directly delivered to a separate political organization. If none, enter -0-

For Paperwork Reduction Act Notice, see the Instructions for Form 990 or 990-EZ.

Schedule C (Form 990 or 990-EZ) 2016

LHA

Part II-A Complete if the organization is exempt under section 501(c)(3) and filed Form 5768 (election under section 501(h)).

- A Check ☐ if the filing organization belongs to an affiliated group (and list in Part IV each affiliated group member's name, address, EIN, expenses, and share of excess lobbying expenditures).
- B Check ☐ if the filing organization checked box A and "limited control" provisions apply.

Limits on Lobbying Expenditures
 (The term "expenditures" means amounts paid or incurred.)

	(a) Filing organization's totals	(b) Affiliated group totals												
1a Total lobbying expenditures to influence public opinion (grass roots lobbying)														
b Total lobbying expenditures to influence a legislative body (direct lobbying)														
c Total lobbying expenditures (add lines 1a and 1b)														
d Other exempt purpose expenditures														
e Total exempt purpose expenditures (add lines 1c and 1d)														
f Lobbying nontaxable amount. Enter the amount from the following table in both columns.														
<table border="1"> <thead> <tr> <th>If the amount on line 1e, column (a) or (b) is:</th> <th>The lobbying nontaxable amount is:</th> </tr> </thead> <tbody> <tr> <td>Not over \$500,000</td> <td>20% of the amount on line 1e.</td> </tr> <tr> <td>Over \$500,000 but not over \$1,000,000</td> <td>\$100,000 plus 15% of the excess over \$500,000.</td> </tr> <tr> <td>Over \$1,000,000 but not over \$1,500,000</td> <td>\$175,000 plus 10% of the excess over \$1,000,000.</td> </tr> <tr> <td>Over \$1,500,000 but not over \$17,000,000</td> <td>\$225,000 plus 5% of the excess over \$1,500,000.</td> </tr> <tr> <td>Over \$17,000,000</td> <td>\$1,000,000.</td> </tr> </tbody> </table>	If the amount on line 1e, column (a) or (b) is:	The lobbying nontaxable amount is:	Not over \$500,000	20% of the amount on line 1e.	Over \$500,000 but not over \$1,000,000	\$100,000 plus 15% of the excess over \$500,000.	Over \$1,000,000 but not over \$1,500,000	\$175,000 plus 10% of the excess over \$1,000,000. OMB No. 1545-0047

2016
Open to Public
Inspection

Name of the organization

THERMOSTAT RECYCLING CORPORATIONEmployer identification number
54-1830284**Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts.** Complete if the organization answered "Yes" on Form 990, Part IV, line 6.

	(a) Donor advised funds	(b) Funds and other accounts
1 Total number at end of year		
2 Aggregate value of contributions to (during year)		
3 Aggregate value of grants from (during year)		
4 Aggregate value at end of year		

5 Did the organization inform all donors and donor advisors in writing that the assets held in donor advised funds are the organization's property, subject to the organization's exclusive legal control? ☐ Yes ☐ No

6 Did the organization inform all grantees, donors, and donor advisors in writing that grant funds can be used only for charitable purposes and not for the benefit of the donor or donor advisor, or for any other purpose conferring impermissible private benefit? ☐ Yes ☐ No

Part II Conservation Easements. Complete if the organization answered "Yes" on Form 990, Part IV, line 7.

1 Purpose(s) of conservation easements held by the organization (check all that apply).

<input type="checkbox"/> Preservation of land for public use (e.g., recreation or education)	<input type="checkbox"/> Preservation of a historically important land area
<input type="checkbox"/> Protection of natural habitat	<input type="checkbox"/> Preservation of a certified historic structure
<input type="checkbox"/> Preservation of open space	

2 Complete lines 2a through 2d if the organization held a qualified conservation contribution in the form of a conservation easement on the last day of the tax year.

	Held at the End of the Tax Year
a Total number of conservation easements	2a
b Total acreage restricted by conservation easements	2b
c Number of conservation easements on a certified historic structure included in (a)	2c
d Number of conservation easements included in (c) acquired after 8/17/06, and not on a historic structure listed in the National Register	2d

3 Number of conservation easements modified, transferred, released, extinguished, or terminated by the organization during the tax year ▶

4 Number of states where property subject to conservation easement is located ▶

5 Does the organization have a written policy regarding the periodic monitoring, inspection, handling of violations, and enforcement of the conservation easements it holds? ☐ Yes ☐ No

6 Staff and volunteer hours devoted to monitoring, inspecting, handling of violations, and enforcing conservation easements during the year ▶

7 Amount of expenses incurred in monitoring, inspecting, handling of violations, and enforcing conservation easements during the year ▶ \$

8 Does each conservation easement reported on line 2(d) above satisfy the requirements of section 170(h)(4)(B)(i) and section 170(h)(4)(B)(ii)? ☐ Yes ☐ No

9 In Part XIII, describe how the organization reports conservation easements in its revenue and expense statement, and balance sheet, and include, if applicable, the text of the footnote to the organization's financial statements that describes the organization's accounting for conservation easements.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets.

Complete if the organization answered "Yes" on Form 990, Part IV, line 8.

1a If the organization elected, as permitted under SFAS 116 (ASC 958), not to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide, in Part XIII, the text of the footnote to its financial statements that describes these items.

b If the organization elected, as permitted under SFAS 116 (ASC 958), to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide the following amounts relating to these items:

(i) Revenue included on Form 990, Part VIII, line 1	▶ \$
(ii) Assets included in Form 990, Part X	▶ \$

2 If the organization received or held works of art, historical treasures, or other similar assets for financial gain, provide the following amounts required to be reported under SFAS 116 (ASC 958) relating to these items:

a Revenue included on Form 990, Part VIII, line 1	▶ \$
b Assets included in Form 990, Part X	▶ \$

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets (continued)

3 Using the organization's acquisition, accession, and other records, check any of the following that are a significant use of its collection items (check all that apply):

a ☐ Public exhibition

d ☐ Loan or exchange programs

b ☐ Scholarly research

e ☐ Other _____

c ☐ Preservation for future generations

4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII.

5 During the year, did the organization solicit or receive donations of art, historical treasures, or other similar assets

to be sold to raise funds rather than to be maintained as part of the organization's collection? ☐ Yes ☐ No

Part IV Escrow and Custodial Arrangements. Complete if the organization answered "Yes" on Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII and complete the following table:

	Amount
1c Beginning balance	
1d Additions during the year	
1e Distributions during the year	
1f Ending balance	

2a Did the organization include an amount on Form 990, Part X, line 21, for escrow or custodial account liability? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII. Check here if the explanation has been provided on Part XIII ☐

Part V Endowment Funds. Complete if the organization answered "Yes" on Form 990, Part IV, line 10.

	(a) Current year	(b) Prior year	(c) Two years back	(d) Three years back	(e) Four years back
1a Beginning of year balance					
b Contributions					
c Net investment earnings, gains, and losses					
d Grants or scholarships					
e Other expenditures for facilities and programs					
f Administrative expenses					
g End of year balance					

2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as:

a Board designated or quasi-endowment ☐ _____ %

b Permanent endowment ☐ _____ %

c Temporarily restricted endowment ☐ _____ %

The percentages on lines 2a, 2b, and 2c should equal 100%.

3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by:

(i) unrelated organizations

(ii) related organizations

	Yes	No
3a(i)		
3a(ii)		
3b If "Yes" on line 3a(ii), are the related organizations listed as required on Schedule R?		

b If "Yes" on line 3a(ii), are the related organizations listed as required on Schedule R? ☐

4 Describe in Part XIII the intended uses of the organization's endowment funds.

Part VI Land, Buildings, and Equipment.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11a. See Form 990, Part X, line 10.

Description of property	(a) Cost or other basis (investment)	(b) Cost or other basis (other)	(c) Accumulated depreciation	(d) Book value
1a Land				
b Buildings				
c Leasehold improvements				
d Equipment		10,068.	6,816.	3,252.
e Other				

Total. Add lines 1a through 1e. (Column (d) must equal Form 990, Part X, column (B), line 10c.) ☐ 3,252.

Schedule D (Form 990) 2016

Part VII Investments - Other Securities.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11b. See Form 990, Part X, line 12.

(a) Description of security or category (including name of security)	(b) Book value	(c) Method of valuation: Cost or end-of-year market value
(1) Financial derivatives		
(2) Closely-held equity interests		
(3) Other		
(A)		
(B)		
(C)		
(D)		
(E)		
(F)		
(G)		
(H)		
Total. (Col. (b) must equal Form 990, Part X, col. (B) line 12.) ▶		

Part VIII Investments - Program Related.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11c. See Form 990, Part X, line 13.

(a) Description of investment	(b) Book value	(c) Method of valuation: Cost or end-of-year market value
(1)		
(2)		
(3)		
(4)		
(5)		
(6)		
(7)		
(8)		
(9)		
Total. (Col. (b) must equal Form 990, Part X, col. (B) line 13.) ▶		

Part IX Other Assets.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11d. See Form 990, Part X, line 15.

(a) Description	(b) Book value
(1)	
(2)	
(3)	
(4)	
(5)	
(6)	
(7)	
(8)	
(9)	
Total. (Column (b) must equal Form 990, Part X, col. (B) line 15.) ▶	

Part X Other Liabilities.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11e or 11f. See Form 990, Part X, line 25.

1. (a) Description of liability	(b) Book value
(1) Federal income taxes	
(2)	
(3)	
(4)	
(5)	
(6)	
(7)	
(8)	
(9)	
Total. (Column (b) must equal Form 990, Part X, col. (B) line 25.) ▶	

2. Liability for uncertain tax positions. In Part XIII, provide the text of the footnote to the organization's financial statements that reports the organization's liability for uncertain tax positions under FIN 48 (ASC 740). Check here if the text of the footnote has been provided in Part XIII ☒

Part XI Reconciliation of Revenue per Audited Financial Statements With Revenue per Return.

Complete if the organization answered "Yes" on Form 990, Part IV, line 12a.

1	Total revenue, gains, and other support per audited financial statements	1	2,920,513.
2	Amounts included on line 1 but not on Form 990, Part VIII, line 12:		
a	Net unrealized gains (losses) on investments	2a	
b	Donated services and use of facilities	2b	
c	Recoveries of prior year grants	2c	
d	Other (Describe in Part XIII.)	2d	
e	Add lines 2a through 2d	2e	0.
3	Subtract line 2e from line 1	3	2,920,513.
4	Amounts included on Form 990, Part VIII, line 12, but not on line 1:		
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a	
b	Other (Describe in Part XIII.)	4b	
c	Add lines 4a and 4b	4c	0.
5	Total revenue. Add lines 3 and 4c. (This must equal Form 990, Part I, line 12.)	5	2,920,513.

Part XII Reconciliation of Expenses per Audited Financial Statements With Expenses per Return.

Complete if the organization answered "Yes" on Form 990, Part IV, line 12a.

1	Total expenses and losses per audited financial statements	1	2,277,984.
2	Amounts included on line 1 but not on Form 990, Part IX, line 25:		
a	Donated services and use of facilities	2a	
b	Prior year adjustments	2b	
c	Other losses	2c	
d	Other (Describe in Part XIII.)	2d	
e	Add lines 2a through 2d	2e	0.
3	Subtract line 2e from line 1	3	2,277,984.
4	Amounts included on Form 990, Part IX, line 25, but not on line 1:		
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a	
b	Other (Describe in Part XIII.)	4b	
c	Add lines 4a and 4b	4c	0.
5	Total expenses. Add lines 3 and 4c. (This must equal Form 990, Part I, line 18.)	5	2,277,984.

Part XIII Supplemental Information.

Provide the descriptions required for Part II, lines 3, 5, and 9; Part III, lines 1a and 4; Part IV, lines 1b and 2b; Part V, line 4; Part X, line 2; Part XI, lines 2d and 4b; and Part XII, lines 2d and 4b. Also complete this part to provide any additional information.

PART X, LINE 2:

TRC IS EXEMPT FROM INCOME TAXES ON ITS EXEMPT ACTIVITIES UNDER SECTION 501

(C) (6) OF THE INTERNAL REVENUE CODE. TRC FOLLOWS ACCOUNTING STANDARDS

FOR DEALING WITH UNCERTAINTY IN ACCOUNTING FOR INCOME TAX PROVISIONS. TRC

HAS DETERMINED THAT IT DOES NOT HAVE ANY MATERIAL UNRECOGNIZED TAX

BENEFITS OR OBLIGATIONS AS OF DECEMBER 31, 2016 AND 2015. YEARS ENDING ON

OR AFTER DECEMBER 31, 2013 REMAIN SUBJECT TO EXAMINATION BY FEDERAL AND

STATE TAX AUTHORITIES.

**SCHEDULE J
(Form 990)**

Department of the Treasury
Internal Revenue Service

Compensation Information

For certain Officers, Directors, Trustees, Key Employees, and Highest
Compensated Employees

▶ Complete if the organization answered "Yes" on Form 990, Part IV, line 23.

▶ Attach to Form 990.

▶ Information about Schedule J (Form 990) and its instructions is at www.irs.gov/form990.

OMB No. 1545-0047

2016

Open to Public
Inspection

Name of the organization

THERMOSTAT RECYCLING CORPORATION

Employer identification number

54-1830284

Part I Questions Regarding Compensation

1a Check the appropriate box(es) if the organization provided any of the following to or for a person listed on Form 990, Part VII, Section A, line 1a. Complete Part III to provide any relevant information regarding these items.

☐ First-class or charter travel

☐ Travel for companions

☐ Tax indemnification and gross-up payments

☐ Discretionary spending account

☐ Housing allowance or residence for personal use

☐ Payments for business use of personal residence

☐ Health or social club dues or initiation fees

☐ Personal services (such as, maid, chauffeur, chef)

Yes No

1b

b If any of the boxes on line 1a are checked, did the organization follow a written policy regarding payment or reimbursement or provision of all of the expenses described above? If "No," complete Part III to explain

2 Did the organization require substantiation prior to reimbursing or allowing expenses incurred by all directors, trustees, and officers, including the CEO/Executive Director, regarding the items checked on line 1a?

2

3 Indicate which, if any, of the following the filing organization used to establish the compensation of the organization's CEO/Executive Director. Check all that apply. Do not check any boxes for methods used by a related organization to establish compensation of the CEO/Executive Director, but explain in Part III.

☐ Compensation committee

☐ Independent compensation consultant

☒ Form 990 of other organizations

☒ Written employment contract

☒ Compensation survey or study

☒ Approval by the board or compensation committee

4 During the year, did any person listed on Form 990, Part VII, Section A, line 1a, with respect to the filing organization or a related organization:

a Receive a severance payment or change-of-control payment?

4a

X

b Participate in, or receive payment from, a supplemental nonqualified retirement plan?

4b

X

c Participate in, or receive payment from, an equity-based compensation arrangement?

4c

X

If "Yes" to any of lines 4a-c, list the persons and provide the applicable amounts for each item in Part III.

Only section 501(c)(3), 501(c)(4), and 501(c)(29) organizations must complete lines 5-9.

5 For persons listed on Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the revenues of:

a The organization?

5a

b Any related organization?

5b

If "Yes" on line 5a or 5b, describe in Part III.

6 For persons listed on Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the net earnings of:

a The organization?

6a

b Any related organization?

6b

If "Yes" on line 6a or 6b, describe in Part III.

7 For persons listed on Form 990, Part VII, Section A, line 1a, did the organization provide any nonfixed payments not described on lines 5 and 6? If "Yes," describe in Part III

7

8 Were any amounts reported on Form 990, Part VII, paid or accrued pursuant to a contract that was subject to the initial contract exception described in Regulations section 53.4958-4(a)(3)? If "Yes," describe in Part III

8

9 If "Yes" on line 8, did the organization also follow the rebuttable presumption procedure described in Regulations section 53.4958-6(c)?

9

LHA For Paperwork Reduction Act Notice, see the Instructions for Form 990.

Schedule J (Form 990) 2016

Part III Supplemental Information

Provide the information, explanation, or descriptions required for Part I, lines 1a, 1b, 3, 4a, 4b, 4c, 5a, 5b, 6a, 6b, 7, and 8, and for Part II. Also complete this part for any additional information.

PART I, LINE 3:

COMPENSATION IS ESTABLISHED BY THE BOARD OF DIRECTORS AND COMPARABILITY
DATA, AMONG OTHER METHODS, ARE USED TO DETERMINE THE COMPENSATION OF THE
ORGANIZATION'S EXECUTIVE DIRECTOR.

ILLINOIS WHOLESALER SURVEY 2017

RESULTS & INSIGHTS

PREPARED BY: RRS

COMMISSIONED BY: THERMOSTAT RECYCLING CORPORATION

recycle.com

Thermostat Recycling
CORPORATION

APPROACH AND SUMMARY

In 2017 the Thermostat Recycling Corporation conducted a survey of collection channel partners, particularly focused on wholesalers, to better understand attitudes and perspectives regarding the Thermostat Recycling Corporation collection program administered through their respective stores, but also points of view on related areas of environmental risk, regulation, and programmatic information on sales and operational behaviors. The results are illustrated in the report results below.

The survey of business managers at wholesale locations in Illinois was administered in-person. Personnel visited many different locations in 2017 and provided a survey instrument to willing participants through an electronic tablet device. The survey was designed to be completed quickly and efficiently while providing sufficient insights that may contribute to decisions for program administration in the future.

Geography Covered:

As can be seen in Figure 1 below, the survey team successfully secured forty-two survey responses from store managers across a wide swath of Illinois including locations in eight different counties.

FIGURE 1: Survey distribution locations

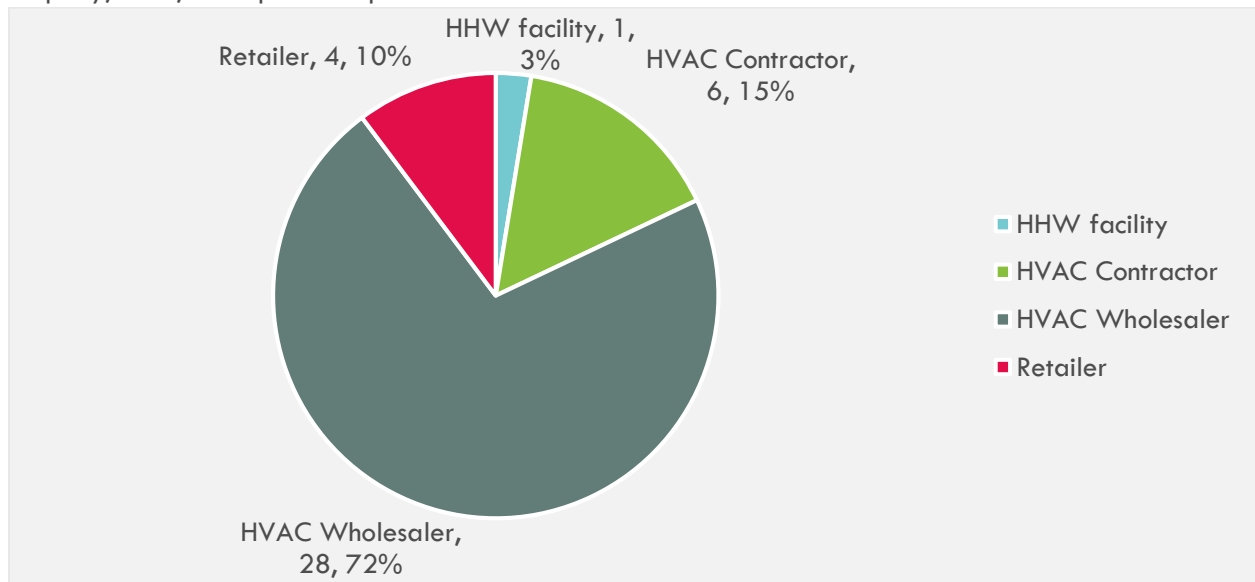

RESULTS

Section 1: About Your Business & Workplace Recycling

1-2. [Informational - No Questions]

3. Which of the following best describes your business?

The majority, 72%, of responses represented HVAC wholesale businesses.

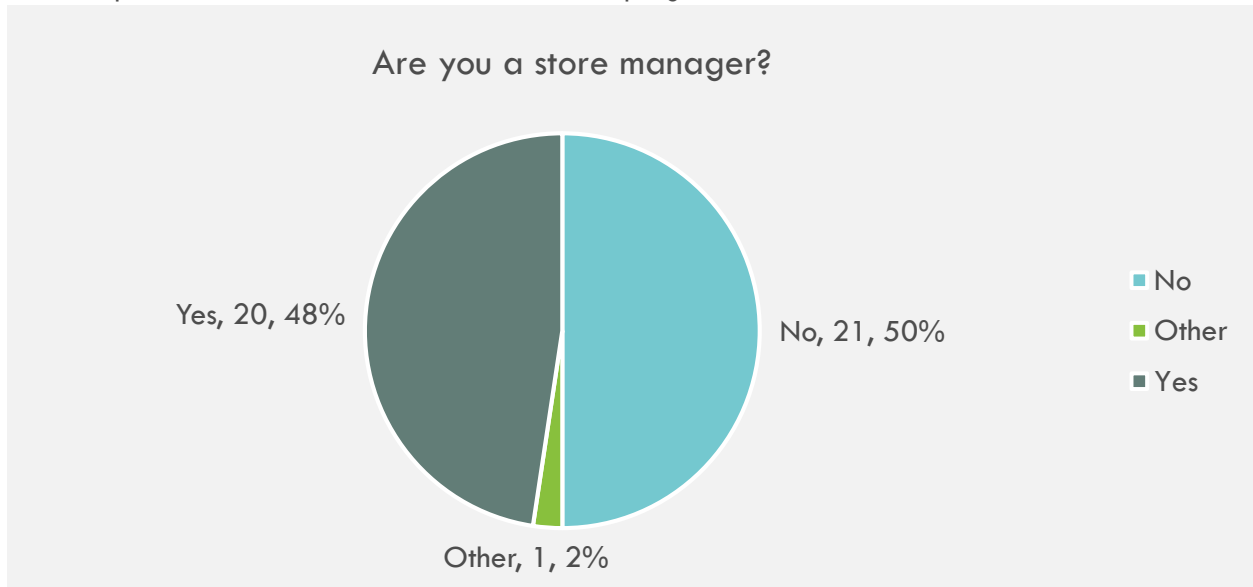

4. What is the ZIP code for your store?

The following table shows the number of responses by geographic location. Eight counties were represented.

ZIP Code	County	# Responses
60004	Cook	2
60007	Cook	1
60123	Kane	2
60124	Kane	1
60201	Cook	2
60202	Cook	1
60515	Dupage	1
60516	Dupage	1
60540	Dupage	1
60563	Dupage	1
60607	Cook	1
60608	Cook	1
60609	Cook	1
60610	Cook	1
60618	Cook	1
60624	Cook	1
60632	Cook	1
60641	Cook	2
60642	Cook	1
60654	Cook	1
61032	Stephenson	1
61104	Winnebago	2
61109	Winnebago	4
61603	Peoria	2
61615	Peoria	1
61701	Mclean	1
62702	Sangamon	1
62703	Sangamon	2
62704	Sangamon	1
62707	Sangamon	1
62711	Sangamon	2
Grand Total		42

5. Are you a store manager?

Approximately half of all respondents were store managers. If not a manager, an effort was made to identify an individual responsible for administration of the collection program.

Please answer if you chose "Yes" to Q5 above.

6. If a store manager, are you responsible within your store for compliance of the mercury thermostat return program?

Of those respondents who were in the position of store manager, 62% were responsible for mercury thermostat compliance.

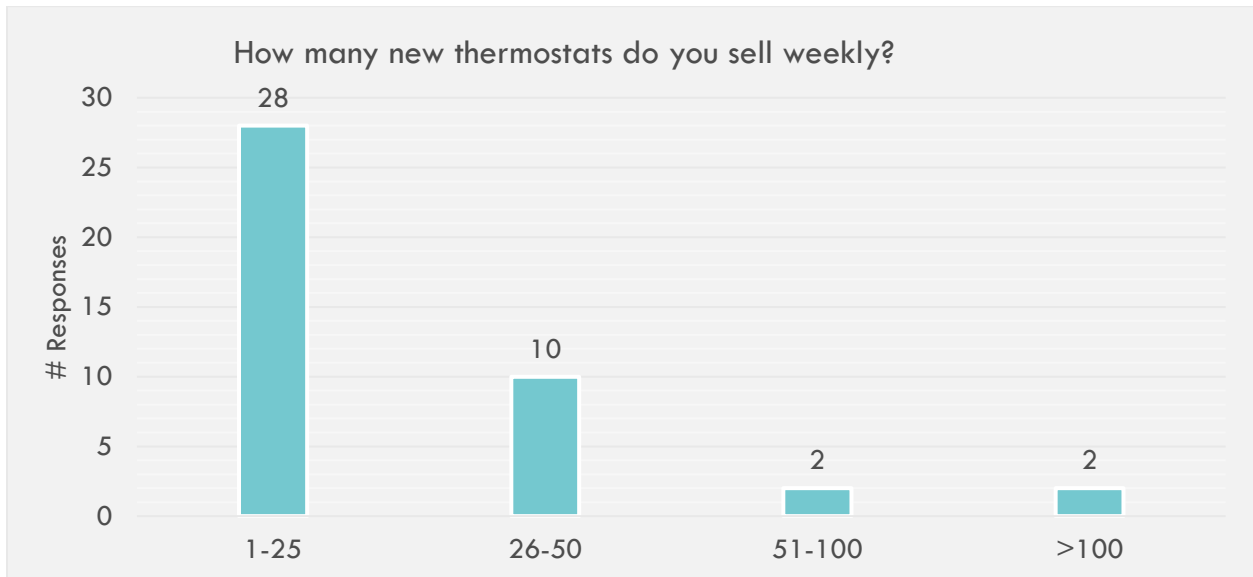

7. How many employees are in your store?

Stores represented in the survey ranged greatly in size.

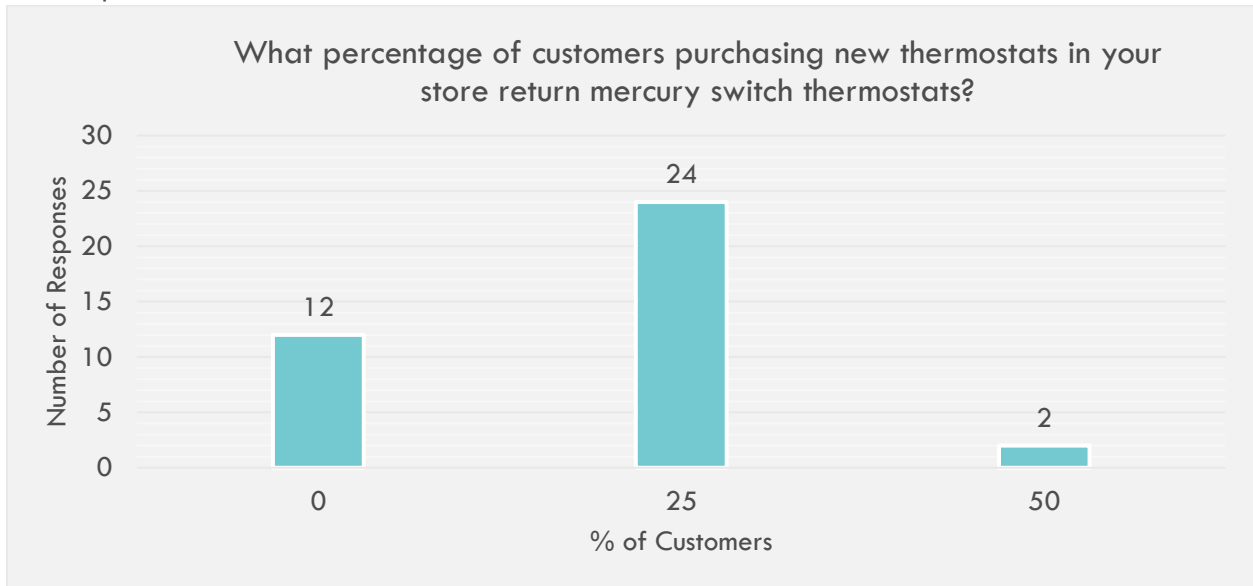

8. How many new thermostats do you sell weekly?

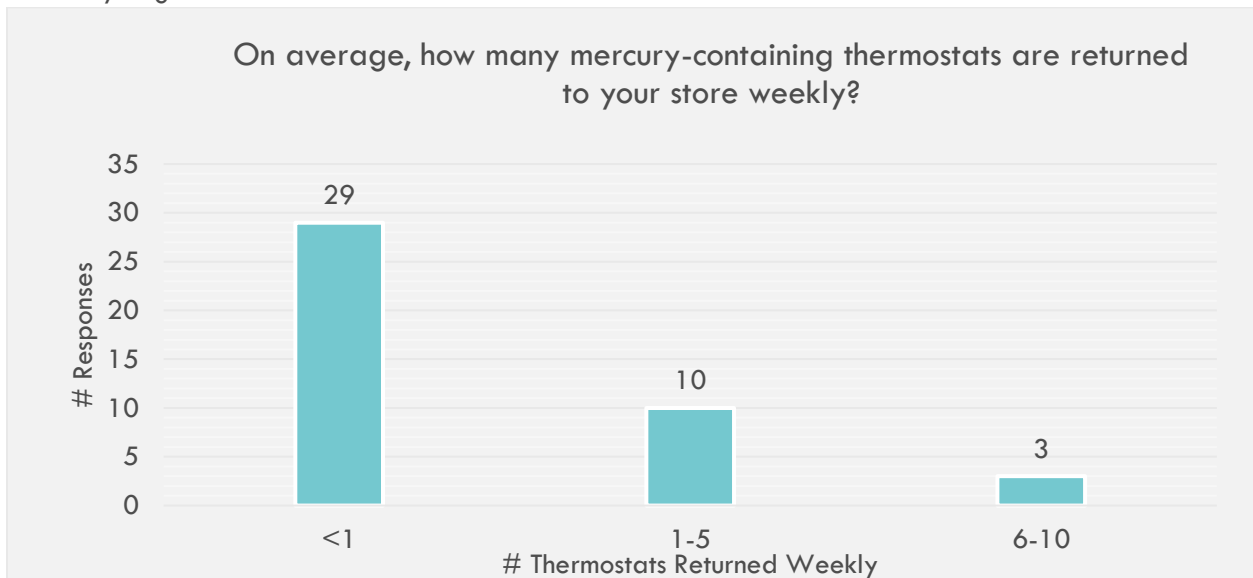

9. What percentage of customers purchasing new thermostats in your store return mercury switch thermostats? (Please estimate)

This question illustrates that only a small fraction of thermostat purchasers also returns mercury thermostats at the time of that purchase.

10. On average, how many mercury-containing thermostats are returned to your store weekly?

Most respondents indicated that during a typical week, no mercury-containing thermostats are returned to their store for recycling.

11. In your opinion, does venting refrigerant pose a real risk to the environment?

Nearly 90% of respondents recognize refrigerant as a significant environmental risk.

12. If an HVAC tech throws a mercury thermostat in the trash, how harmful do you consider it to be to the environment?

More than 90% of respondents recognize mercury thermostats to pose a significant environmental risk disposed.

13. Among Contractors/Technicians who return thermostats, what percentage are regular/repeat customers of your store?

Respondents indicated a distributed set of responses regarding the representation of repeat clientele.

14. In your view, how much do the following contribute to mercury pollution?

Please select a number from 1-5 to rank each source of mercury. (1 = most pollution; 5 = least pollution)

14a) Fluorescent Bulbs

14b) Coal-Fired Power Plants

14c) Waste Incinerators

14d) Mercury-Containing Thermostats

14e) Artisanal and Small-scale Gold Production

Q14) Overall Results (Averages)

The following graphic depicts all data summarized together with average values.

15. How familiar are you with the Thermostat Recycling Corporation (TRC)?

Responses indicate a high degree of familiarity with Thermostat Recycling Corporation, its mission and activities.

16. Where is the bin for returned thermostats in your store?

Most bins are located behind the counter but a substantial fraction are located out front in the customer-facing area.

17. Overall, how convenient is it to recycle thermostats?

Please select a number 1 (Extremely Convenient) -5 (Extremely Inconvenient)

Respondents generally found the program to be convenient.

18. What Agency inspects you?

19. Of the following regulations, which seem to be most important at your company?
Please select a number from 1-5 to rank each (5 = Most Important; 1 = Least Important)

19a) Refrigerant Sales

19b) OSHA

19c) FSLA (Overtime)

19d) Other?

3 Respondents indicated there is another VERY IMPORTANT regulation, but did not indicate what that is. 1 Respondent indicated the Highway Patrol is very important.

20. In your opinion, should the government regulate the HVAC business more or less?

The responses to this question suggest first there is not a high level dissatisfaction regarding the level of regulation, but those who would like to see a change are relatively equally weighted between those seeking more regulation and those seeking less.

21. Are you aware of an Illinois law pertaining to disposal of mercury switch thermostats?

22. How would you characterize your opinion of each of the following laws?

	Dislike Very Much	Neither Like nor Dislike	Like Very Much
a. Ban on disposal of mercury thermostats in the trash	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Requirement for manufacturers to pay for collection program for waste thermostats	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Requirement for contractors/technicians to recycle all mercury thermostats removed from service.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Requirement for HVAC wholesalers to act as collection points for mercury thermostats	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

a. Ban on disposal of mercury thermostats in the trash

b. Requirement for manufacturers to pay for collection program for waste thermostats

c. Requirement for contactors/technicians to recycle all mercury thermostats removed from service.

d. Requirement for HVAC wholesalers to act as collection points for mercury thermostats

The most significant result from this question may be that there is not significant dissatisfaction with the collection program at wholesaler locations among respondents.

23. Did anyone from the Illinois Environmental Protection Agency visit the store in 2016 inquiring about your thermostat take-back program?

Please answer if you selected "Yes" above.

24. If yes, how would you characterize the impact of the in-store visit?

26. In your view, what are the chances of TRC's wholesaler green bin program collecting the most mercury switch thermostats (>75%) removed from service?

Responses to this question suggest an optimistic view of the TRC recycling program's ability to recover mercury thermostats from the market.

27. What impact would the following have on increasing the number of thermostats recycled?

Please rate on a scale of 1-10 (10 = Most Impact; 1 = No Impact)

28. If a member of the Illinois Environmental Protection Agency visited stores like yours 1-2x every year, what impact do you think this might have on the number of mercury-containing thermostats stores could collect?

29. Would the risk of a fine encourage better results?

Respondents had

30. Would a sizable raffle or prize for customers, such as a big screen TV, encourage better results?

31. What are biggest barriers to contractor/technician participation?

Please rate on a scale of 1-5 (5 = definitely true; 1 = definitely false)

Section 2: Personal Recycling Behaviors

32. Do you recycle typical household packaging items (paper, plastics, bottles, cans, etc.) home?

Please answer if you chose “Occasionally” or “Frequently” above.

33. 27b. If you do recycle, which best describes your recycling program?

34. What's your age?

35. Do you vote?

Section 3: Mercury Switch Thermostat Policy

37. If a law to heighten government oversight and enforcement regarding recycling mercury-containing thermostats were introduced, would you vote for or against it?

38. If a law to fine contractors who did not recycle mercury-containing thermostats were introduced, would you vote for or against it?

39. If a law to incentivize contractors to recycle mercury-containing thermostats were introduced, would you vote for or against it?

APPENDIX

Survey Instrument

The following survey instrument, in the form of a self-completion questionnaire, was administered through the Qualtrics platform to collect information on the perspectives, attitudes and opinions of thermostat wholesalers in the state of Illinois.

THERMOSTAT RECYCLING CORPORATION PARTNER SURVEY - 2017

We appreciate your participation in our survey related to the environment. Your responses to this survey will be anonymous and your honest opinions are appreciated. This survey will take approximately 5-7 minutes to complete. Thank you!

Section 1: About Your Business & Workplace Recycling

3. Which of the following best describes your business?

- ☐ HVAC Wholesaler
- ☐ HVAC Contractor
- ☐ Retailer
- ☐ HHW facility
- ☐ Other

4. What is the ZIP code for your store? _____

5. Are you a store manager?

- ☐ Yes
- ☐ No
- ☐ Other

Please answer if you chose "Yes" to Q3 above.

6. 3b. If a store manager, are you responsible within your store for compliance of the mercury thermostat return program?

- ☐ Yes
- ☐ No

7. How many employees are in your store?

- ☐ 1
- ☐ 2-5
- ☐ 6-10
- ☐ 11-20
- ☐ 21+

8. How many new thermostats do you sell weekly?

- ☐ 1-25
- ☐ 26-50
- ☐ 51-100
- ☐ >100
- ☐ Much More

9. What percentage of customers purchasing new thermostats in your store return mercury switch thermostats? (Please estimate)

_____ %

10. On average, how many mercury-containing thermostats are returned to your store weekly?

- ☐ Less than 1
- ☐ 1-5
- ☐ 6-10
- ☐ 11-20
- ☐ 21-50
- ☐ Much More

11. In your opinion, does venting refrigerant pose a real risk to the environment?

- ☐ Yes
- ☐ No

12. If an HVAC tech throws a mercury thermostat in the trash, how harmful do you consider it to be to the environment?

- ☐ Not at all
- ☐ Very little
- ☐ Somewhat Harmful
- ☐ Very Harmful

13. Among Contractors/Technicians who return thermostats, what percentage are regular/repeat customers of your store?

_____ % are regular customers

14. In your view, how much do the following contribute to mercury pollution?

Please select a number from 1-5 to rank each source of mercury. (1 = most pollution; 5 = least pollution)

- _____ Fluorescent Bulbs
- _____ Coal-Fired Power Plants
- _____ Waste Incinerators
- _____ Mercury-Containing Thermostats
- _____ artisanal and small-scale gold production

15. How familiar are you with the Thermostat Recycling Corporation (TRC)?

- ☐ Very Familiar - I understand who they are and what they do.
- ☐ Somewhat Familiar - I recognize the green bin program; know they take back thermostats through wholesaler channels.
- ☐ Slight Familiarity - I've heard of them.
- ☐ Unfamiliar - I don't know about TRC.

16. Where is the bin for returned thermostats in your store?

- ☐ In front of the counter (visible/accessible to customers)
- ☐ Behind the counter
- ☐ Don't have one

17. Overall, how convenient is it to recycle thermostats?

Please select a number 1-5

_____ Convenience (1 = Very Convenient; 5 = Very Inconvenient)

18. What Agency inspects you?

- ☐ IL EPA - Refrigerant
- ☐ IL EPA - Fluorescent Bulb Returns
- ☐ OSHA
- ☐ Other (Please Indicate) _____

19. Of the following regulations, which seem to be most important at your company?

Please select a number from 1-5 to rank each (5 = Most Important; 1 = Least Important)

- _____ Refrigerant Sales
- _____ OSHA
- _____ FSLA (Overtime)
- _____ Other?

20. In your opinion, should the government regulate the HVAC business more or less?

- ☐ More
- ☐ Less
- ☐ Same

21. Are you aware of an Illinois law pertaining to disposal of mercury switch thermostats?

- ☐ Yes
- ☐ No

22. How would you characterize your opinion of each of the following laws?

	Dislike Very Much	Neither Like nor Dislike	Like Very Much
a. Ban on disposal of mercury thermostats in the trash	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Requirement for manufacturers to pay for collection program for waste thermostats	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Requirement for contactors/technicians to recycle all mercury thermostats removed from service.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Requirement for HVAC wholesalers to act as collection points for mercury thermostats	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

23. Did anyone from the Illinois Environmental Protection Agency visit the store in 2016 inquiring about your thermostat take-back program?

- ☐ Yes
- ☐ No

Please answer if you selected "Yes" above.

24. If yes, how would you characterize the impact of the in-store visit?

- ☐ Not at all helpful
- ☐ Somewhat helpful
- ☐ Very helpful
- ☐ I don't know

25. In your view, what are the chances of TRC's wholesaler green bin program collecting the most mercury switch thermostats (>75%) removed from service?

- ☐ Extremely likely
- ☐ Somewhat likely
- ☐ Neither likely nor unlikely
- ☐ Somewhat unlikely
- ☐ Extremely unlikely

26. What impact would the following have on increasing the number of thermostats recycled?
Please rate on a scale of 1-10 (10 = Most Impact; 1 = No Impact)

- _____ Better signage & education - posters, stickers etc.
- _____ More involvement & assistance from TRC green bin program
- _____ More involvement & assistance from IL EPA
- _____ One or more contractors whose employees throw mercury thermostats in the trash getting fined for non-compliance
- _____ One or more wholesalers getting fined for not collecting thermostats

27. If a member of the Illinois Environmental Protection Agency visited stores like yours 1-2x every year, what impact do you think this might have on the number of mercury-containing thermostats stores could collect?

- ☐ A great deal
- ☐ A lot
- ☐ A moderate amount
- ☐ A little
- ☐ None at all

28. Would the risk of a fine encourage better results?

- ☐ Yes
- ☐ No
- ☐ Maybe

29. Would a sizable raffle or prize for customers, such as a big screen TV, encourage better results?

- ☐ Yes
- ☐ No
- ☐ Maybe

30. What are biggest barriers to contractor/technician participation?

Please rate on a scale of 1-5 (5 = definitely true; 1 = definitely false)

- _____ Return bins aren't highly visible to my customers
- _____ Technicians aren't concerned about returning Hg thermostats
- _____ My customers and I don't have adequate program Info/ Advertising/ Communications
- _____ Owners of HVAC contracting businesses don't have an environmental agreement as a term of employment for technicians.

Section 2: Personal Recycling Behaviors

32. Do you recycle typical household packaging items (paper, plastics, bottles, cans, etc.) home?

- ☐ Not At All
- ☐ Occasionally
- ☐ Frequently

Please answer if you chose "Occasionally" or "Frequently" above.

33. If you do recycle, which best describes your recycling program?

- ☐ My city provides recycling services automatically with choice to opt-out
- ☐ My city provides recycling services but I must opt-in
- ☐ I subscribe voluntarily for curbside collection
- ☐ I take recyclables to a drop-off station
- ☐ Other

34. What's your age?

- ☐ 18-25
- ☐ 26-34
- ☐ 35-44
- ☐ 45-54
- ☐ 55+

35. Do you vote?

- ☐ Yes
- ☐ No

Section 3: Mercury Switch Thermostat Policy

37. If a law to heighten government oversight and enforcement regarding recycling mercury-containing thermostats were introduced, would you vote for or against it?

- ☐ Yes
- ☐ No

38. If a law to fine contractors who did not recycle mercury-containing thermostats were introduced, would you vote for or against it?

- ☐ Yes
- ☐ No

39. If a law to incentivize contractors to recycle mercury-containing thermostats were introduced, would you vote for or against it?

- ☐ Yes
- ☐ No
