THESE ARE TOXIC!

Many thermostats sold prior to 2006 contain liquid mercury, which is toxic and hazardous to human health. Follow these steps to dispose of your mercury thermostats properly and receive your \$30 rebate:

- 🔍 Identify and collect your old mercury thermostats
- ↓ Download & fill out rebate form
- 📍 Find your nearest collection site
- 📄 Drop off your rebate form & mercury thermostats at the collection site
- 💰 Receive a \$30 rebate* per thermostat

Download a Rebate Form and Find a Collection Site Here!

bit.ly/TRCrebate

Looking for a new thermostat? Check with your utility provider to see if they offer rebates for smart thermostats.

*Offer available to California residents only. For information by state, visit bit.ly/TRCstates

Figure B-5. Social Media Posts Updated with \$30 Rebate

The graphic is a social media post with a green background. At the top, there are three icons: a circular mercury thermostat, a pair of blue gloves holding a white envelope with a red stamp, and a rectangular digital thermostat. Below these icons, the text "DO YOU HAVE A MERCURY THERMOSTAT IN YOUR HOME?" is written in large, white, bold, sans-serif capital letters. Below this text, there is a dark green horizontal bar with the text "RECYCLE YOUR MERCURY THERMOSTAT WITH US" in white, bold, sans-serif capital letters. Below the bar, on the left, is a close-up image of a white circular mercury thermostat against a blue background. To the right of this image, the text "HOW TO CLAIM YOUR REBATE:" is written in blue, bold, sans-serif capital letters. Below this text is a list of three steps: "1. Print out the rebate form on the TRC website", "2. Place your thermostat in a clear plastic bag", and "3. Bring your rebate and thermostat to the collection center". At the bottom right of the list is a small green recycling logo with the text "Thermostat Recycling Corporation" inside it.

School Outreach Materials

Figure B-8. [Survey](#) to Schools and Education-Related Facility Contacts

The screenshot shows a web-based survey form titled "TRC Schools Outreach Survey". At the top is the Thermostat Recycling Corporation logo. The form contains several paragraphs of introductory text explaining the purpose of the survey and the risks of mercury thermostats. Below the text is a section for user authentication, showing the email "epang@sga-inc.net" with a "Switch account" link and a cloud icon. A red asterisk indicates a required field. The form then has two input fields: "Email *" and "Name of School or School District *", each with a placeholder text "Your email" and "Your answer" respectively.

 **Thermostat Recycling**
CORPORATION

TRC Schools Outreach Survey

The Thermostat Recycling Corporation (TRC) is a nonprofit stewardship organization that facilitates the collection and proper disposal of mercury thermostats throughout the United States. We do this because mercury thermostats can pose serious risks to both human and environmental health if broken or improperly disposed of.

We are conducting outreach to schools and other childcare-related facilities located in California because while mercury exposure is unsafe for anyone, it has particularly adverse effects on developing children. We hope to serve as a resource to you by providing guidance related to mercury thermostats and ensuring good health and safety for all of California's youth.

We greatly appreciate you taking a minute out of your day to reply to this short survey, so we can best support the health and safety of California's students and staff!

For more information on TRC, visit <https://thermostat-recycle.org/>

\$70,000 Fine for Not Recycling a Thermostat! TRC has the Solution.

Who knew that those old thermostats could cost you \$70,000? That's the fine for failing to recycle mercury thermostats. Why such a hefty penalty? Because when mercury thermostats are discarded with everyday trash, the mercury bulb will break, and the mercury will escape and become a dangerous hazard.

According to California law, it's illegal to dispose of mercury thermostats in the trash or leave them at customers' premises. HVAC, demolition contractors, property managers, and residents are responsible for recycling all mercury thermostats they remove from service. Everyone can comply with the law and avoid the \$70,000 fine by enrolling in the Thermostat Recycling Corporation's (TRC) free and easy recycling program. After receiving collection containers from TRC, property managers and contractors can collect mercury thermostats and then send back the containers (when full or after one year) with an enclosed prepaid shipping form.

Staying compliant with the law is a good thing, but what's even better is that property managers, contractors, or property owners get a \$5 rebate for every recycled mercury thermostat. That's right, instead of paying the fine, TRC will pay you! It's a win-win situation. You get rewarded for doing the right thing, avoid the \$70,000 penalty, and the environment is protected from additional mercury pollution.

If interested, enroll in the program by visiting

<https://thermostat-recycle.org/program-info/recycling-by-state/california/> or contact Danielle Myers at danielle.myers@thermostat-recycle.org or 888-266-0550 with any questions.

FINE

Recycle Your Thermostat

See back for details

Identifying and Recycling Mercury Thermostats

Many thermostats sold prior to 2006 contain a glass tube or "switch" of liquid mercury, which are toxic and hazardous to human health. If not disposed of at a designated collection site, mercury thermostats can expose sanitation workers, soil and groundwater to toxic mercury contamination. Because of this, failure to properly dispose of mercury-containing thermostats can result in a \$70,000 fine.

1

Identify potential mercury thermostat

Mercury thermostats are manually operated and use a lever or dial to control the temperature. Digital thermostats that use a digital screen and buttons do not contain mercury.

2

Look for a glass tube of liquid mercury inside

If you can't tell whether you have a mercury-containing thermostat, put on rubber, nitrile, or latex gloves and carefully remove the cover. If you see a small glass tube full of silvery liquid, assume it contains mercury.

3

Place the cover back onto the thermostat (if removed) and remove the mercury thermostat from the wall

Wearing protective gloves, carefully remove the thermostat from the wall and place it inside a sealed clear bag. Do NOT disassemble or attempt to remove the glass tube.

4

Find a drop-off location on our website

Go to bit.ly/TRC-CA-Property-Manager or scan the below QR code with your phone to find a drop-off location near you. To receive a \$5 rebate, complete and submit the California Rebate Form when you drop-off your thermostat.
